

Key investor information for investors in Switzerland

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

DWS Invest Brazilian Equities

Share class: IC, ISIN: LU1573968200, Security code: DWS2MY, Currency: EUR

a sub-fund of DWS Invest. The management company is DWS Investment S.A., a member of the DWS Group.

Objectives and investment policy

The fund is actively managed. The fund is managed in reference to a benchmark. The objective of the investment policy is to achieve sustained capital appreciation that exceeds the benchmark (MSCI Brazil 10/40 Net TR (EUR)). In order to achieve this, the fund invests primarily in equities of issuers having their registered office in Brazil or of issuers having their registered office outside Brazil but their principal business activity in Brazil. The securities issued by these companies may be listed on Brazilian or other foreign securities exchanges or traded on other regulated markets in a member country of the Organisation for Economic Co-operation and Development (OECD) that operate regularly and are recognized and open to the public. In this context, the selection of individual investments is the responsibility of the fund management. The majority of the fund's securities or their issuers are expected to be components of the benchmark. The fund management will use

its discretion to invest in securities and sectors that are not included in the benchmark in order to take advantages of specific investment opportunities. The strategy offers investors access to the Brazilian equity market. In regard to the benchmark the fund positioning can deviate substantially (e.g. by off-benchmark positioning or significant under- and overweights). Due to the before mentioned characteristic of the fund strategy the deviation of the portfolio from the benchmark is typically relatively high. Despite the fact that the fund aims to outperform the benchmark, the potential outperformance might be limited depending on the prevailing market environment (e.g. less volatile market environment) and actual positioning versus the benchmark. The currency of the fund is EUR. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares generally on a daily basis.

Risk and reward profile

The calculation of the risk and reward profile is based on simulated data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified

in category 7 because its share price may fluctuate very strongly and the likelihood of both losses and gains may therefore be very high. The following risks could be of particular significance for the fund: The fund invests in equities. Equities are subject to strong price fluctuations and thus also to the risk of price decreases. The fund invests in emerging markets. Investing in assets from the emerging markets generally entails a greater risk (potentially including considerable legal, economic and political risks) than investing in assets from the markets of established countries.

A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
Ongoing charges	0.59 %
Charges taken from the fund under certain specific conditions	
Performance fee	None

The ongoing charges figure is based on expenses for the fiscal year ending 31.12.2019. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any.

Additional information on costs can be found in the cost section(s) of the prospectus.

Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from the IC share class of DWS Invest Brazilian Equities were deducted during the calculation. The IC share class of DWS Invest Brazilian Equities was launched in 2017.
