DWS Invest ESG Emerging Markets Top Dividend

Share class: USD TFD, ISIN: LU1663865944, Security code: DWS2P3, Currency: USD

a sub-fund of DWS Invest. The management company is DWS Investment S.A., a member of the DWS Group.

Objectives and investment policy

The fund is actively managed. The fund is not managed in reference to a benchmark. The objective of the investment policy is to achieve sustained capital appreciation. In order to achieve this, the fund invests primarily in equities of issuers having their registered office or their principal business activity in emerging-market countries or which, as holding companies, predominantly hold interests in companies registered in an emerging-market country and which are expected to achieve an above-average dividend yield. The following aspects shall be considered when selecting the equities: Dividend yield above the market average,

sustainability of dividend yield and growth, historical and estimated future earnings growth, attractive price/earnings ratio. When selecting investments, environmental and social aspects and the principles of good corporate governance (ESG aspects) are taken into consideration alongside the financial performance. In this context, the selection of individual investments is the responsibility of the fund management. The currency of the fund is EUR. The fund distributes annually. You may request the redemption of shares generally on a daily basis.

Risk and reward profile

The calculation of the risk and reward profile is based on simulated data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 6 because its share price may fluctuate strongly and the likelihood of both losses and gains may therefore be high. The

following risks could be of particular significance for the fund: The fund invests in equities. Equities are subject to strong price fluctuations and thus also to the risk of price decreases. The fund invests in emerging markets. Investing in assets from the emerging markets generally entails a greater risk (potentially including considerable legal, economic and political risks) than investing in assets from the markets of established countries. The seeks to generate income from dividends, i.e. from expected distributions per equity. If a company distributes a smaller dividend than expected or no dividend at all, this can have a negative impact on the value of equities or derivatives.

A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.
