

Key Investor Information for Investors in the United Kingdom

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

DWS Qi Global AC Equity Fund

Share class: TFC, ISIN: IE00BN4NNP13, Security code: DWS3AD, Currency: EUR

a sub-fund of DWS Invest (IE) ICAV. The management company is DWS Investment S.A., a member of the DWS Group.

Objectives and investment policy

The fund is actively managed. The fund is managed in reference to a benchmark. The investment objective of the fund is to achieve long-term capital appreciation in excess of the the Benchmark (MSCI ACWI Index). In order to achieve this, the fund will primarily invest in global equities of large and mid-cap companies, from both developed markets and emerging markets. Stocks are selected using a proprietary and dynamic multi-factor allocation strategy designed by the DWS Quantitative investments (Qi) group of the sub-investment manager, DWS International GmbH. The strategy seeks to select and weight investments according to criteria typical of fundamental analysis and technical analysis taking into account a balance between opportunity and risk. The fund may use derivatives for investment purposes and also for the purposes of efficient portfolio management (including hedging). The majority of

the fund's securities or their issuers are expected to be components of the benchmark. The fund management will use its discretion to invest in securities and sectors that are not included in the benchmark in order to take advantages of specific investment opportunities. In relation to the benchmark, it does not track it exactly but attempts to exceed its performance and can therefore deviate substantially - both positively and negatively - from the benchmark. Despite the fact that the fund aims to outperform the benchmark, the potential outperformance might be limited depending on the prevailing market environment (e.g. less volatile market environment) and actual positioning versus the benchmark. The currency of the fund is USD. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares generally on a daily basis.

Risk and reward profile

The calculation of the risk and reward profile is based on simulated data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 6 because its share price may fluctuate strongly and the likelihood of both losses and gains may therefore be high. The following risks could be of particular significance for the fund: The fund uses derivatives on underlyings so as to participate in their increases in value or to bet on their losses in value. The increased opportunities associated with this are accompanied by increased risk of loss. Furthermore, derivative transactions may be used to hedge the fund's assets. The use of derivative transactions for

hedging purposes may reduce the fund's upside opportunities. The fund reallocates investments between various asset classes depending on the market. Depending on the market phase and the reallocation of the fund's assets, it is therefore possible that the risk of the fund may vary. The risk/return profile can therefore fluctuate considerably within a short period of time. The fund invests in equities. Equities are subject to strong price fluctuations and thus also to the risk of price decreases. The fund invests in emerging markets. Investing in assets from the emerging markets generally entails a greater risk (potentially including considerable legal, economic, operational and political risks) than investing in assets from the markets of established countries. The fund invests in the People's Republic of China. Investments in the People's Republic of China are associated with risks resulting from the special legal, political and economic environment. The future political direction of the Chinese government is uncertain, there is the risk of negative performance due to government interventions and restrictions.

A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
Ongoing charges	0.75 %
Charges taken from the fund under certain specific conditions	
Performance fee	None

The ongoing charges figure is based on expenses for the fiscal year ending 31.12.2023. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any.

Additional information on costs can be found in the cost section(s) of the prospectus.

Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from the TFC share class of DWS Qi Global AC Equity Fund were deducted during the calculation. The TFC share class of DWS Qi Global AC Equity Fund was launched in 2021.

Practical information

The depositary is State Street Custodial Services (Ireland) Limited, Ireland. Copies of the prospectus and the periodic reports are available free of charge in the language of this document. The documents as well as other information (including the latest share prices) are available free of charge. The documents are available on your local DWS website or at www.dws.com. Information on the current remuneration policy of the management company, including a description of how remuneration and benefits are calculated is published on the Internet at <https://www.dws.com/footer/Legal-Resources/dws-remuneration-policy?setLanguage=en>. The information will be sent to you in paper form free of charge upon request. Taxation regimes applicable to the fund in your jurisdiction may affect your personal tax situation. Prospective investors should inform themselves of, and where appropriate take advice on such taxation regimes. DWS Invest (IE) ICAV may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate

or inconsistent with the relevant parts of the sales prospectus. This fund is a sub-fund of DWS Invest (IE) ICAV for which the sales prospectus and the periodic reports are prepared as a whole in addition to individual supplements per sub-fund. The assets and liabilities of each sub-fund are segregated by law. As a result, assets of one sub-fund are not available in the event of claims against or insolvency of another. More share classes may be available for this fund - please refer to the relevant section of the supplement for further details. Shares may in many cases be exchanged for shares in another asset class of the same or another DWS Invest (IE) ICAV sub-fund. Details can be found in the "Exchange of shares" section of the prospectus. This fund is authorised in Ireland and is regulated by the Central Bank of Ireland. DWS Investment S.A. is authorised in Luxembourg and is regulated by the Commission de Surveillance du Secteur Financier.
