DWS Invest (IE) ICAV

GENERAL INFORMATION

Background to the ICAV

DWS Invest (IE) ICAV (the “ICAV”) was registered in Ireland pursuant to the Irish Collective Asset-management Vehicles Acts 2015 and 2020 (the “Acts”), on 28 November 2022 under registration number C194848. The ICAV was incorporated under an Instrument of Incorporation, pursuant to the Acts, and was registered with the Central Bank of Ireland (the “Central Bank”) on 12 July 2019. The ICAV is authorised by the Central Bank of Ireland (the “Central Bank”) as an undertaking for collective investment in transferable securities (“UCITS”) pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (“UCITS Regulations”). The ICAV is organised in the form of an umbrella fund with segregated liability between each of the funds offered (collectively the “Funds” and individually “sub-fund” or “Fund”). Each fund offered by the ICAV will have a distinct portfolio of investments. The sole objective of the ICAV is the collective investment of its Funds in either or both transferable securities and other liquid financial assets of capital raised from the public and which operates on the principle of risk spreading, in accordance with the UCITS Regulations and the instrument of incorporation. References to statutes, regulations and laws shall include any amendments thereto. All capitalised terms used but not defined herein shall have the meaning ascribed hereto in the ICAV’s prospectus dated 1 December 2023 (the “Prospectus”).

Schedule of Sub-Funds

As at 31 December 2024, the ICAV has established nine sub-funds namely DWS Qi Global AC Equity Fund, which launched on 23 October 2019, DWS Noor Precious Metals Securities Fund, which launched as a result of a merger on 28 May 2021, Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund, which launched on 1 March 2023 and DWS Customised Global Investment Grade Bond Fund, which launched on 18 April 2024 (together the “Funds” and individually “sub-fund” or “Fund”). Xtrackers MSCI World UCITS Fund, Xtrackers MSCI China A UCITS Fund, Xtrackers MSCI ACWI UCITS Fund, Xtrackers MSCI USA UCITS Fund and Xtrackers S&P 500 UCITS Fund are approved but not launched as at 31 December 2024 and as such no information for these Funds has been presented in the financial statements.

The manager of the ICAV is DWS Investment S.A. (the “Manager”), which in turn has appointed DWS Investment GmbH as investment manager (the “Investment Manager”) of the Funds. The Investment Manager has appointed DWS International GmbH as sub-investment manager of the DWS Qi Global AC Equity Fund and DWS Investment Management Americas Inc. as the sub-investment manager of the DWS Noor Precious Metals Securities Fund (DWS International GmbH and DWS Investment Management Americas Inc. each a sub-investment manager and together being, the “Sub-Investment Managers”).

Shares representing interests in different Funds of the ICAV may be issued from time to time by the Directors. Within each Fund, the Directors may issue Shares of more than one Class. All Shares of each Class will rank *pari passu* save as provided for in the relevant Supplement. A separate portfolio of assets will be maintained for each Fund (and accordingly not for each Class of Shares) and will be invested in accordance with the investment objective and strategies applicable to the particular Fund. As the ICAV has segregated liability between its Funds, any liability incurred on behalf of or attributable to any Fund shall be discharged solely out of the assets of that Fund.

Investment objective and policy

DWS Qi Global AC Equity Fund

The investment objective of the Fund is to achieve long-term capital appreciation in excess of the MSCI ACWI Index (the “Benchmark”). In order to achieve the investment objective, the Fund will primarily invest in equities of large and mid-cap companies which are either listed and/or domiciled in or have meaningful economic exposure to both developed markets and emerging markets. With the exception of permitted investments in unlisted securities, the Fund’s investments will be listed on Regulated Markets, and may be selected without restrictions to geographical, industrial or sectoral exposure. Such investments may include China A-Shares, which the Fund may invest in directly through Stock Connect as further described in the Prospectus. Individual stocks are selected by the Sub-Investment Manager of the Fund, using a proprietary and dynamic multi-factor allocation strategy designed by the DWS Quantitative investments (Qi) group within the Sub-Investment Manager. The strategy seeks to select and weight investments according to criteria typical of fundamental analysis and technical analysis taking into account a balance between opportunity and risk. Fundamental analysis involves analysis of companies’ balance sheet data and valuation metrics, whereas technical analysis involves forecasting the direction of stock prices by analysing historical market price data.

DWS Invest (IE) ICAV
GENERAL INFORMATION (continued)

Investment objective and policy (continued)

DWS Noor Precious Metals Securities Fund

The investment objective of the Fund is to achieve capital appreciation in the medium to long term by investing in a portfolio of Sharia compliant equity and equity-related securities of companies engaged in activities (exploration, mining and processing) related to gold, silver, platinum or other precious metals or minerals. The Fund is actively managed and in order to achieve the investment objective, the Fund will invest in a portfolio of Sharia compliant equity and equity related securities (including, without limitation, depositary receipts such as Sharia-compliant global depositary receipts (GDR) and American depositary receipts (ADR), but excluding preferred shares and bonds) listed or traded on a Regulated Market (as set out in Appendix 1 of the Prospectus), of companies engaged in activities (exploration, mining and processing) related to gold, silver, platinum or other precious metals or minerals. The Fund will not invest directly in physical gold or silver bullion or in securities where the underlying investment is in such commodities.

Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund

The investment objective of the Fund is to track the performance before fees and expenses of an index that provides exposure to the global investment grade fixed-rate debt markets, denominated in Euro and US Dollars across developed market countries. In order to achieve the investment objective, the Fund will adopt a Direct Investment Policy to gain exposure to the Global Agg Corp 1-10 Year OECD Senior 1bn 50% USD 50% EUR Select Index (the Benchmark Index).

DWS Customised Global Investment Grade Bond Fund

The investment objective of the Fund is to achieve a return above that of the benchmark, ICE BoA 1-5 Year Global Corporate Index (GVBC), USD hedged (the Benchmark). In order to achieve the investment objective, the Fund will invest globally in debt securities that have an investment grade status, as defined as BBB- and above, at the time of acquisition. In the case of a split rating involving three rating agencies, the second best will prevail. If a security is rated by only two agencies, the lower of the two ratings will be used for the rating classification. If a security only has one rating, the single rating will be used. If there is no official rating, an internal rating will be applied in accordance with DWS internal guidelines. Up to 5% of the Fund's net assets may be held in debt securities that have a below investment grade rating, as defined as BB+ and below, due to ratings downgrade after initial date of acquisition. If the 5% below investment grade exposure threshold is exceeded, the Fund will have 90 calendar days to rectify.

Dealing

DWS Qi Global AC Equity Fund

For the Fund every Business Day shall be a Dealing Day. The valuation point for the Fund is 9 p.m. (Irish time) on each Dealing Day. State Street Fund Services (Ireland) Limited's (the "Administrator") Dealing Deadline for subscriptions and redemptions is 9 p.m. (Irish time) on each Dealing Day for all Share Classes of the Fund. Subscription proceeds must be received by State Street Custodial Services (Ireland) Limited (the "Depositary"), within 2 Business Days of the relevant Dealing Day.

DWS Noor Precious Metals Securities Fund

DWS Invest (IE) ICAV
GENERAL INFORMATION (continued)

Sharia Investment Guidelines - DWS Noor Precious Metals Securities Fund

DWS Noor Precious Metals Securities Fund undertakes its investment activities in accordance with the Sharia Investment Guidelines. As a consequence, this may mean that the Fund may under-perform, when compared to other investment funds with comparable investment objectives that do not seek to adhere to Islamic investment criteria (for example the inability to invest in interest bearing investment securities and the amount of any donations to charities made up of cash dividends which have been cleansed). The Sharia Investment Guidelines may require the Fund to dispose of investments in circumstances that are less advantageous than might otherwise be the case. In particular, DWS Investment GmbH (the "Investment Manager") will receive the Sharia Supervisory Board's instructions through Khalij Islamic (BVI) Limited (the "Sharia Advisor"), as set out in the Sharia Advisory Agreement executed between the Fund, the Investment Manager and the Sharia Advisor.

Pursuant to such instructions by the Sharia Advisor, the Investment Manager and DWS Investment Management Americas Inc., the Sub-Investment Manager of the Fund, will, for instance, not be allowed to invest in securities and other financial instruments which, in the opinion of the Sharia Supervisory Board of the Sharia Advisor, are not or are no longer, in compliance with the Sharia Investment Guidelines. Similarly, cash balances held by the Fund from time to time may be deposited on terms which shall grant no return on the sum deposited to the benefit of the sub-fund.

Although the Fund intends to observe the Sharia Investment Guidelines at all times, no absolute assurance can be given, as there may be occasions when the Fund's investments do not fully comply with such criteria for factors outside the control of the Fund. The Depositary shall not be responsible for monitoring compliance with the Sharia Investment Guidelines.

Purification of Income - DWS Noor Precious Metals Securities Fund

It is obligatory to purify dividends from prohibited income (e.g. interest earnings, income generated by other impermissible activities, etc).

The Fund may invest only in companies that satisfy the Sharia criteria stated in the Prospectus. Where the Fund invests in a company which satisfies the Sharia Investment Guidelines set out in the Prospectus but which still derives a portion of its revenue from prohibited activities, then the Fund must cleanse, where appropriate, all dividend and income receipts from such a company by donating a certain portion of such dividend receipts to charity.

In order to purify the income received from prohibited activities, an amount equivalent to 5% of all cash dividends received within the Fund will be donated to a charity. The Administrator shall provide a schedule on a semi-annual basis showing the amount to be paid to charities in respect of the prohibited income received from investments of the Fund.

During the course of each financial period, when the Fund receives any dividend, 5% of the dividend will be deducted from the Net Asset Value of the sub-fund and accrued separately.

The Directors shall determine which charities shall benefit from donations (with no direct or indirect benefit accruing to the Sharia Advisor, Sharia Supervisory Committee of the Sharia Advisor, the ICAV, its Funds or any of its investors) and the Fund shall make any donations to such charitable organisations within a reasonable time after such determination in good faith. Such donations will be deducted directly from the assets of the Fund by the Fund. Donations shall be made to charitable institutions as the Directors shall determine from time to time in consultation with the Investment Manager and Sharia Advisor.

It is not permitted to conclude futures or options contracts or other forms of derivative instruments on the Fund's assets without the explicit approval from the Sharia Advisor.

It is not permissible to undertake trading in the shares of a corporation when the assets of such corporations are exclusively comprised of cash.

The Fund may acquire foreign currency by way of spot currency contracts for the purpose of purchasing listed equity and equity-related transferable securities as well as non-listed securities, for the day-to-day operations of the Fund (subject always to the further restrictions as set out herein i.e. not for the purposes of hedging or entering into short positions) and may sell such foreign currencies by way of spot currency contracts where such foreign currencies are the proceeds of sale of listed or non-listed transferable equity and equity-related transferable securities.

DWS Invest (IE) ICAV
GENERAL INFORMATION (continued)

Sharia Investment Guidelines - DWS Noor Precious Metals Securities Fund (continued)

Purification of Income - DWS Noor Precious Metals Securities Fund (continued)

The Fund may purchase units or shares of one or several UCITS provided they are not prohibited under the restrictions specified under investment restrictions as set out in the section of the Prospectus entitled Investment Restrictions, provided that such UCITS shall comply with the Sharia Investment Guidelines.

Subject to the UCITS Regulations and the requirements of the Central Bank, the Sharia Investment Guidelines as set out in the Fund's Supplement shall continue to be complied with. The Sharia Investment Guidelines may be modified from time to time by the Sharia Advisor as deemed appropriate.

DWS Invest (IE) ICAV

DIRECTORS' REPORT

For the financial year ended 31 December 2024

The Directors present to the shareholders the annual report together with the audited financial statements of DWS Invest (IE) ICAV (the "ICAV") for the financial year ended 31 December 2024.

As at 31 December 2024, the ICAV has established nine sub-funds namely DWS Qi Global AC Equity Fund, which launched on 23 October 2019, DWS Noor Precious Metals Securities Fund, which launched as a result of a merger on 28 May 2021, Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund, which launched on 1 March 2023 and DWS Customised Global Investment Grade Bond Fund, which launched on 18 April 2024 (together the "Funds" and individually "sub-fund" or "Fund"). Xtrackers MSCI World UCITS Fund, Xtrackers MSCI China A UCITS Fund, Xtrackers MSCI ACWI UCITS Fund, Xtrackers MSCI USA UCITS Fund and Xtrackers S&P 500 UCITS Fund are approved but not launched as at 31 December 2024 and as such no additional information for these Funds has been presented in the financial statements. Please see general information section for further details on nature of business carried out by the Funds.

Directors' Responsibility Statement

The directors are responsible for preparing the Directors' Report and financial statements, in accordance with applicable law and regulations.

The Irish Collective Asset-management Vehicles Acts 2015 to 2021 (together, the "Acts") requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU and applicable law.

The financial statements are required to give a true and fair view of the assets, liabilities and financial position of the ICAV and the Funds at the end of the financial year and of the increase in net assets attributable to redeemable participating shareholders in the Funds for the financial year. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the ICAV's and the Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Funds or to cease operations or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and increase in net assets attributable to holders of redeemable participating shares in the Funds and enable them to ensure that the financial statements comply with the Irish Collective Asset-management Vehicles Acts 2015 to 2021 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the ICAV and the Funds. In this regard they have entrusted the assets of the Funds to a trustee for safe-keeping. They are responsible for such internal controls as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and to prevent and detect fraud and other irregularities. The directors are also responsible for preparing a Directors' Report that complies with the requirements of the Irish Collective Asset-management Vehicles Acts 2015 to 2021.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the ICAV's website. Legislation in the Republic of Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Results, activities and future developments

The results of operations are set out in the Statement of Comprehensive Income on page 25. A detailed review of activities and future developments is contained in the Investment Manager's Report. There has been no change in the nature of business or principal activities of the Funds during the financial year.

DWS Invest (IE) ICAV

DIRECTORS' REPORT (continued)

For the financial year ended 31 December 2024

Principal Material Changes

During the financial year, an updated Prospectus and supplements to the Prospectus were adopted and approved to take account of updated registered office, investment policy and restriction and industry risks. Prospectus and supplements are available on request. There have been no changes in the key service providers since inception.

Directors

The Directors of the ICAV are:

Michael Whelan (Non-executive Director, Irish Resident)

Mr. Whelan is a highly experienced financial services professional who is currently Chairman and non-executive director of a number of regulated funds and other financial services companies. Mr. Whelan was Chief Country Officer of Deutsche Bank in Ireland from 2007 until 2015 during which time he led the substantial growth of the business which saw a significant increase in the Bank's footprint in Ireland as well as the development of a number of new business areas. Mr. Whelan's previous experience includes that of managing director of the Irish Futures and Options Exchange, an electronic exchange owned by the major banks and financial institutions in Ireland. Mr. Whelan is a business studies graduate of UCD and a fellow of the Chartered Association of Certified Accountants.

Gerry Grimes (Non-executive Director, Chairman, Irish Resident)

Mr. Grimes has over 30 years investment management and banking experience. Mr. Grimes previously worked in the Central Bank of Ireland in a number of senior investment positions, including Head of Reserve Management. He was a founder and Managing Director of Allied Irish Capital Management Ltd, where he managed a group of investment professionals with circa USD 1.4 billion under management, across a range of asset classes.

Mr. Grimes is an independent director of investment funds and special purpose vehicles and also lectures in Risk Management at University College Cork. He holds a First-Class Honours Degree in Economics and History from University College Dublin and the Diploma for Non-executive Directors from the Financial Times/Pearson. He is a past Deputy President of AIMA, the leading representative body for the global alternative asset management industry.

Felix Jueschke (Non-executive Director, German Resident)

Mr. Jueschke joined Deutsche Bank in 1999 and is currently Global Head of Product Specialists Traditional Fixed Income & Multi Asset within DWS, based in Germany. Mr. Jueschke has extensive experience in structuring and management of UCITS and non-UCITS funds. Mr. Jueschke has a Master of Science in International Business with a specialisation in Finance from Maastricht University.

Directors' and ICAV Secretary's interests in shares and contracts

The Directors or their respective families and Goodbody Secretarial Limited (the "Secretary") who held office at 31 December 2024 had no interest beneficial or non-beneficial in the share capital of the Funds. The Directors are not aware of any contracts or arrangements of any significance in relation to the business of the Funds in which the Directors had any interest.

Dividends

Under the Instrument of Incorporation, the Directors are entitled to declare dividends out of net income (i.e. income less expenses) and/or realised and unrealised gains net of realised and unrealised losses and/or capital as specified in the relevant Supplement.

Unless otherwise provided for in the relevant Supplement, dividends (if any) will be declared out of the net income attributable to the relevant Class. The Directors of the ICAV do not currently intend to pay out a dividend.

DWS Invest (IE) ICAV

DIRECTORS' REPORT (continued)

For the financial year ended 31 December 2024

Risk management objectives and policies

The main risks arising from the Funds' financial instruments are market price, interest rate, foreign currency, liquidity and credit risk. For further information on risk management objectives and policies, please see Note 6 of these financial statements and the Prospectus and Supplements of the ICAV.

Employees

The ICAV and the Funds had no employees during the financial year ended 31 December 2024 (2023: no employees).

Significant events during the financial year

See Note 10 in Notes to the financial statements.

Significant events since the financial year end

See Note 11 in Notes to the financial statements.

Accounting records

The Directors are responsible for ensuring that adequate accounting records, as outlined in Section 110 of the ICAV Act, 2015, are kept at all times. To achieve this, the Directors have employed State Street Fund Services (Ireland) Limited (the "Administrator"). The adequate accounting records of ICAV are maintained at the registered office of the Administrator at 78 Sir John Rogerson's Quay, Dublin 2, Ireland.

Relevant audit information

The Directors believe that they have taken all steps necessary to make themselves aware of any relevant audit information and have established that the ICAV's statutory auditor is aware of that information in so far as they are aware, there is no relevant audit information of which the ICAV's statutory auditor is unaware.

Sustainable Finance Disclosures Regulation

The underlying investments of the Funds do not take into account the EU criteria for environmentally sustainable economic activities.

Charitable Donations - DWS Noor Precious Metals Securities Fund

The charitable payment for the period 1 July 2023 to 31 December 2023 (USD 29,271) was paid to Healthy Seas in March 2024. The charitable payment for the period 1 January 2024 to 30 June 2024 (USD 19,129) was paid to Healthy Seas in September 2024. The charitable payment for the period 1 July 2024 to 31 December 2024 (USD 14,828) was paid to Healthy Seas in February 2025.

Transactions with connected persons

Regulation 43 of the UCITS Regulations "Restrictions of transactions with connected persons" states that "A responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length, and b) in the best interest of the share-holders of the UCITS".

As required under UCITS Regulation 81.4, the Directors, as responsible persons are satisfied that there are arrangements in place, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected party; and all transactions with connected parties that were entered into during the period to which the report relates, complied with the obligations that are prescribed by Regulation 43(1).

Details of related parties and related party transactions are disclosed in Note 7 of the notes to the financial statements.

DWS Invest (IE) ICAV**DIRECTORS' REPORT (continued)****For the financial year ended 31 December 2024****Corporate governance statement**

During the financial year under review, the ICAV was subject to corporate governance practices imposed by:

- The ICAV Acts which are available for inspection at the registered office of the ICAV;
- The Instrument of Incorporation of the ICAV which is available for inspection at the registered office of the ICAV at 3 Dublin Landings, North Wall Quay, Dublin 1, D01 C4E0, Ireland;
- The Central Bank in their UCITS Regulations which can be obtained from the Central Bank's website listed below and are available for inspection at the registered office of the ICAV:
<https://www.centralbank.ie/regulation/industry-market-sectors/funds/ucits>

The ICAV has adopted in full the voluntary Code of Corporate Governance (the "Corporate Governance Code") for Collective Investment Schemes ("CIS") and Management Companies issued by the Irish Funds ("IF"), the text of which is available from the IF website, www.irishfunds.ie.

The ICAV has been in compliance with the Corporate Governance Code during the financial year ended 31 December 2024.

Going Concern

The financial statements have been prepared on a going concern basis. The ICAV and the Funds are able to meet all of their liabilities from their assets. The performance, marketability and risks of the Funds are reviewed on a regular basis throughout the financial year. Therefore, the Directors believe that the ICAV will continue in operational existence for the foreseeable future and is financially sound. The Directors are satisfied that, at the time of approving the financial statements, it is appropriate to adopt the going concern basis in preparing the financial statements.

Independent auditors

KPMG, Chartered Accountants, (the "Auditor") indicated their willingness to continue in office in accordance with section 125 of the ICAV Acts.

On behalf of the Board of the Directors

DWS Invest (IE) ICAV
DEPOSITARY'S REPORT

For the financial year ended 31 December 2024

We have enquired into the conduct of DWS Investment S.A. as the Manager of DWS Invest (IE) ICAV ('the ICAV') and into the conduct of the ICAV itself for the financial year ended 31 December 2024, in our capacity as Depositary to the ICAV.

This report including the opinion has been prepared for and solely for the Shareholders in the ICAV as a body, in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, ('the UCITS Regulations'), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Manager and the ICAV in each annual accounting financial period and report thereon to the Shareholders.

Our report shall state whether, in our opinion, the ICAV has been managed in that financial year in accordance with the provisions of the ICAV's Instrument of Incorporation and the UCITS Regulations. It is the overall responsibility of the Manager and the ICAV to comply with these provisions. If the Manager or the ICAV has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

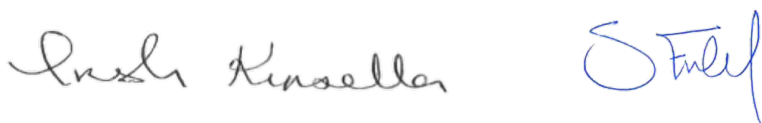

Basis of Depositary's Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the ICAV has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the ICAV's Instrument of Incorporation and the UCITS Regulations and (ii) otherwise in accordance with the ICAV's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the ICAV has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the ICAV by the Instrument of Incorporation, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015 ('the Central Bank UCITS Regulations'); and
- (ii) otherwise in accordance with the provisions of the Instrument of Incorporation, the UCITS Regulations and the Central Bank UCITS Regulations.

DWS Invest (IE) ICAV

INVESTMENT MANAGER'S REPORT

For the financial year ended 31 December 2024

DWS Qi Global AC Equity Fund

Investment Manager's report for the financial year ended 31 December 2024

Fund Performance as at 31 December 2024

Net returns (%) as at 31 December 2024	1M	3M	6M	YTD
DWS Qi Global AC Equity Fund	-2.47	-0.67	4.16	18.86
MSCI ACWI Index	-2.08	-0.70	5.87	17.83

Net returns (%) as at 31 December 2024	1Y	3Y	5Y	Since Inception
DWS Qi Global AC Equity Fund	18.86	17.56	65.40	78.22
MSCI ACWI Index	17.83	17.13	62.19	73.98

Market & Fund Performance Review

The MSCI ACWI Index jumped 17.83% in 2024 (EOD), driven by elections, central banks and AI trends. U.S. equities (MSCI USA +24.56%) performed best, led by a strong contribution from large caps. Only eight U.S. mega cap stocks contributed to half of the annual return from the MSCI AC World Index emphasizing the narrowness of the equity rally. In addition, Trump's re-election victory led to some very pronounced market movements. Other stock markets were also able to achieve strong results in 2024. MSCI China saw double-digit growth of 19.42% (in USD), despite equally weak economic data, but in the hope of government stimulus programs. MSCI Japan rose by 20.74%, although shrinking to less than 9% in USD terms.

The central banks began their cycle of interest rate cuts in 2024, with a Swiss cut in March, followed by the European Central Bank (ECB) in June and the U.S. Fed in September. These cuts assumed inflation would keep falling and were expected to help growth. Against this tide, the Bank of Japan (BoJ) ended its era of negative interest rates in March. However, both the economy and inflation sent mixed signals over the course of the year, leading to market corrections. The most severe of these occurred in August, when weak U.S. economic data met with a rate hike in Japan and a widespread unwinding of the so-called yen carry trade.

DWS Invest (IE) ICAV
INVESTMENT MANAGER'S REPORT (continued)
For the financial year ended 31 December 2024

DWS Qi Global AC Equity Fund (continued)

Investment Manager's report for the financial year ended 31 December 2024 (continued)

Market & Fund Performance Review (continued)

Politics also moved more into focus in 2024. The direct confrontation between Iran and Israel briefly shocked the markets in April. Ongoing trade disputes between the U.S., Europe and China, elections in India, Mexico and South Africa, and the election campaign in the U.S. affected the overall market sentiment in Q2. In June, the European Union (EU) Parliament elections also proved grounds for disruption, triggering a snap election in France. In all twelve western industrialized countries that held national elections the incumbent parties were voted out of office. Finally, the most consequential election for global financial markets took place in the U.S. Global markets rallied in November on Donald Trump's election, with the Republican Party winning a majority in both chambers of Congress.

While expecting business-friendly presidency, investors responded positively to this clear victory. Under the "risk on" regime in November, there were some typical "Trump trades" – appreciation of the dollar, outperformance of U.S. equities, temporary widening of Treasury yields, a rally in Bitcoin. However, concerns over the implications of tariffs, U.S. semiconductor stocks, the European automotive sector and Chinese stocks were down. European equities underperformed, with snap elections scheduled in Germany for February 2025 and the incumbent governments in the Netherlands and France being also under pressure. Finally, the market ran out of steam in December as the Federal Reserve cut the key U.S. interest rate as expected but signaled slower future rate cuts than anticipated by the market and increased its prediction for inflation in 2025.

Through the factor lens, 2024 showed a continuation of the dominating trends of the previous year with outperformance of Momentum, Growth and Quality in H1 2024. Remarkably, global equity markets were marked by regional differences in style performance. In the U.S. and European markets, Growth and Quality were the superior factors again which also increasingly dominated outperforming Momentum primarily driven by U.S. Tech and Mag 7 stocks. In contrast, Value stocks led Japan's rally. The second half of 2024 was characterized by constantly changing factor trends. Growth and Momentum stocks reversed strongly in July on the Fed decision to leave interest rate unchanged and the U.S. export constraints on U.S. chips, while Value and Low Vol outperformed. The next strong factor rotation from Growth to Value in late October was driven by concerns about the U.S. debt level and future deficit levels. In the light of Trump's "America First" political strategy, U.S. Small and Mid Caps outperformed in November followed by a rally in Growth and high beta stocks until the Fed meeting shifted the investors' attention towards Value once again.

DWS Qi Global AC Equity Fund gained 18.86% (NAV base) in 2024. In relative terms, the portfolio outperformed its benchmark by 1.03%.

The overall active return was mainly driven by the portfolio's exposure to Growth and fundamental Analyst Sentiment exposure resulting from the applied multi-factor stock screening model. Additionally, the portfolio exposure to Value factors was rewarded. Whereas continuation of the dominating factor trends supported return contributions from Growth, Financial Strength as well as momentum like Technical Indicators and Analyst Sentiment in H1 2024, intensified factor rotation weighed on the active performance in H2. In particular, unrewarded quality exposure via Financial Strength indicators and reversed Momentum trend detracted active return in H2 2024. The idiosyncratic component increased as well in a volatile market environment.

From the regional perspective, all DM regions delivered positive relative attribution effects dominated by the strong stock selection in European markets. In the EM region, stock selection in China and Taiwan contributed positively.

In the sector breakdown, Information Technology and Communication sectors led the market performance with +31.59% resp. +31.57%, followed by Financials and Consumer Discretionary. Materials and Health Care lagged the market with -8.11% resp. 1.07%. The stock selection was the most successful in IT Sector while the selection attribution effects were slightly negative in Materials, Utilities and Communication.

DWS Noor Precious Metals Securities Fund (continued)

Investment Manager's report for the financial year ended 31 December 2024 (continued)

Market & Fund Performance Review

During the 4th quarter, Palladium, Platinum, Silver, and Gold each had negative returns of -9.03%, -7.57%, -7.24%, and -0.38%, respectively.

Gold and precious metals equities, as measured by the S&P BMI Gold and Precious Metals Index (non-Sharia compliant), lost -13.89% during the period.

Gold ETFs had net outflows of -0.39mm oz, or about -0.5% of total known gold ETFs.

All the Precious Metals rose in October, with Palladium prices rising the most and Platinum the least. Precious Metals saw prices rise in October, with Palladium performing the best and Gold making new all-time highs over the course of the month. Platinum managed a positive gain as well but didn't keep up with other precious metals. Demand for gold from investors been strong as an alternative currency and an inflation hedge. Palladium price rose sharply after news came out that the U.S. government was considering sanctioning Russian Palladium supply. Russia's production accounts for 40% of annual supply, which mostly goes to China, followed by about a quarter going to the U.S. Platinum price rose slightly in sympathy.

Precious Metals declined in November, with Palladium falling the furthest, followed by Silver, Platinum, and Gold. During the month, hedge funds boosted their net bearish Palladium bets to a six-week high in part on higher Russian production. Silver remained in physical supply deficit during the month, but performance was negative as its price trades sensitive to the price of gold. The U.S. dollar strengthened and the recent U.S. rhetoric regarding tariffs for Canadian and Mexican imports raised concerns over the potential impact on inflation. The U.S. dollar (per the DXY Index) strengthened, rising 1.7%, to end the month at 105.7. Gold prices retraced down by -\$101 to \$2,643, falling -3.7%, suggesting the market is not as worried about U.S. credit risk stemming from fiscal deficits and diminishing central bank independence. Strong U.S. economic data may also lead to slower than expected rate cuts from the Fed. With low probability of new Chinese fiscal policy going into year end, the market has turned its attention to the potential impact on the U.S. dollar exchange rate and U.S. treasury yields. Precious metal prices will likely remain range bound as market participants adjust to potential policy changes in the upcoming Trump administration. Despite weakness in Europe, car sales volume remained robust for both China and U.S. markets, which provided fundamental support for PGM demand.

Precious Metals declined in December with Palladium falling furthest, followed by Silver, Platinum, and Gold. USD strengthened and recent U.S. rhetoric regarding tariffs for Canadian and Mexican imports raised concerns over potential inflationary impacts. Strong U.S. economic data may also lead to slower than expected rate cuts for the Fed. Exchange data showed lower speculative positions heading into the year-end, reflecting some short-covering activities before year-end. Global equity markets declined in December on hawkish comments from the U.S. Federal Reserve and as investors realized that short-term interest rates may not decline as fast as previously expected. Longer-term rates, such as on U.S. 10-year Treasury bonds and 10-year German Bunds, move substantially higher in December, dragging down many risk assets. Equity volatility also picked up at least partially due to the uncertainties surrounding potential new policies from the incoming U.S. President.

Contributors to the performance of the fund: The following Gold and PGM equities contributed positively to performance: Gold Road Resources Ltd (0.94% of the fund) up 6.99%, Torex Gold Resources Inc. (1.19% of the fund) up 3.07%, and Pan African Resources PLC (0.88% of the fund) up 5.70%.

Detractors to the performance of the fund: The following Gold and PGM equities detracted from performance: Newmont Corporation (7.50% of the fund) down -29.95%, Barrick Gold Corporation (7.44% of the fund) down -21.72%, and Endeavour Mining PLC (3.64% of the fund) down -24.87%.

During the year, Gold and Silver had positive returns of 27.22% and 21.46%, respectively. Palladium and Platinum had negative returns of -17.05% and -8.50%, respectively.

Market Commentary

Overview

During December 2024, both equities and bond investors suffered losses. However, 2024 ended with consecutive second double digit returns for global equity investors, primarily driven by the U.S. markets. The MSCI World Index return was (-2.6%) for December and (+19.2%) for 2024, after achieving (+24.5%) return during 2023. In the bond market, corporate bonds performed best on both sides of the Atlantic, while longer-dated U.S. Treasuries even posted losses as U.S. Federal Reserve (Fed) rate cut hopes were scaled back.

Fixed Income

United States

The fourth quarter of 2024 showed a sharp reversal of the U.S. treasury yields as 10-year yield increased from 3.78% to 4.57% and 2-year yield increased from 3.64% to 4.24%. As a result, 2-yr and 10-yr yield curve that was (-37) bps at the beginning of 2024, ended the year with +33 bps. Although the Fed delivered a hawkish cut of 25 bps at their last meeting in 2024, the updated (median) economic projections point to two more cuts in 2025, down from previously further four cut expectations. This reflects expectations of somewhat higher inflation next year, as core personal consumption expenditure (PCE) inflation is now projected to be 2.5% next year, up from 2.2%, with growth and unemployment little changed. Credit spreads remained flat for the quarter ending 2024 at 80 bps, up 3 bps from the third quarter 2024.

Eurozone

The ECB cut the deposit rate by another 25 bps in December, marking the fourth rate cut of the year. The ECB is responding to deteriorating economic data and aims to bring inflation towards its 2% target. The term structure of Bund yields steepened in December 2024 with yields at the very short end moving lower, while all other yields in the mid and long end of the curve shifted upwards, probably driven by high new bond supply volumes in sight. On the back of rising rates, the EUR iBoxx Corporate All Index returned (-0.41%) in December. While financials lost (-0.29%) and non-financials fell (-0.51%), overall, they outperformed safe-haven assets like German bunds, which returned (-1.60%).

United Kingdom

During 2024, the BoE implemented two rate cuts of 25 bps each, bringing the year end bank rate down to 4.75%. Like its European peers, yields for UK Gilts also rose during December 2024. For the full year 2024, 10-year yield jumped from 3.53% to 4.56% and two-year yield increased from 3.95% to 4.38%. On the credit front, UK high yield outperformed UK investment grade.

Market Commentary (continued)

Fixed Income (continued)

Japan

After markets were undecided on a December BoJ hike, in a dovish December BoJ meeting, the council voted 8-1 in favor of keeping the policy rate unchanged. While the prerequisites for a normalization of the still accommodate monetary policy rate at 0.25% have been in place for months, BoJ remains cautious, in the light of the new US administration and the upcoming annual wage negotiations. However, governor Ueda keeps mentioning that central bank will raise rates if the economic picture keeps brightening. Lacking any reliable forward guidance, it remains ever unclear when the next hike is going to materialize. Ten-year Japan Government Bonds ended the year at 1.09%, at the highest point in over a decade.

Emerging Markets

In contrast to its developed market peers, the yield on Chinese Government bonds continued to decline during December ending the year at the lowest point on record. During 2024, Chinese government 10-year bonds declined from (2.56%) to (1.67%) and 2-year bonds almost halved from (2.18%) to (1.09%). This drop in Chinese yields takes them below those of the country that has long been the benchmark for deflation and economic stagnation. Recent stimulus packages have successfully supported a growth rebound in China, as the fourth quarter figures could show, but headwinds are likely to intensify going forward (U.S. tariffs being the key factor).

Investment Manager's report for the financial year ended 31 December 2024 (continued)

Market & Fund Performance Review

Throughout the year, macroeconomic data significantly influenced market participants' perceptions of future growth and central bank behaviors. In the United States, early indicators, along with monthly employment and inflation figures, surprised on the upside, leading to lowered expectations for upcoming rate cuts by the Federal Reserve (FED) and rising US bond yields. In contrast, Europe presented a weaker economic picture, with the European Central Bank (ECB) implementing another rate cut in October and signaling further support if conditions did not improve. Political developments took center stage in November, particularly the outcome of the US presidential elections, where Donald Trump was re-elected, and his party gained a majority in both houses, boosting risk sentiment. However, this optimism was short-lived, as markets recognized that forthcoming fiscal support could reduce anticipated monetary support from the FED, causing US interest rates to rise significantly. In December, risk sentiment in global markets declined, despite both the FED and ECB lowering their policy rates. Market expectations for cuts in 2025 shifted, influenced by strong signals from the US central bank regarding potentially inflationary measures under the Trump presidency. This environment exerted upward pressure on US yields, which closed the year at levels not seen since April 2024, while also impacting long-dated yields in Europe, somewhat contradicting the ECB's rate adjustments. In terms of performance, being overweight in credit beta (approximately 1.4 beta) and spread duration contributed positively, particularly through investments in financial issuers, superregional US banks, corporate hybrids, and subordinated bank bonds, while maintaining an underweight position in Energy and Capital Goods. However, underweight positions in Real Estate and the Auto sector, which saw a strong recovery towards year-end, resulted in missed opportunities.

Independent Auditor's Report to the Shareholders of DWS Invest (IE) ICAV

Report on the audit of the financial statements

Opinion

We have audited the financial statements of DWS Invest (IE) ICAV ('the ICAV') for the year ended December 31, 2024 set out on pages 25 to 73, which comprise the Statement of Comprehensive Income, the Statement of Financial Position, the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders, the Statement of Cash Flows and related notes, including the material accounting policies set out in note 2.

The financial reporting framework that has been applied in their preparation is Irish Law and International Financial Reporting Standards (IFRS) as adopted by the European Union.

In our opinion:

- the financial statements give a true and fair view of the assets, liabilities and financial position of the ICAV as at December 31, 2024 and of its increase in net assets attributable to holders of redeemable participating shares for the year then ended;
- the financial statements have been properly prepared in accordance with IFRS as adopted by the European Union; and
- the financial statements have been properly prepared in accordance with the requirements of the Irish Collective Asset-management Vehicles Acts 2015 to 2021 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the ICAV in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the ICAV's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The directors are responsible for the other information presented in the Annual Report together with the financial statements. The other information comprises the information included in the General Information, Directors' Report, Depositary's Report, Investment Manager's Report, Portfolio of Investments (unaudited), Schedule of Portfolio Changes (unaudited), Other Information (unaudited) and Appendices (unaudited). The financial statements and our auditor's report thereon do not comprise part of the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work undertaken during the course of the audit, we have not identified material misstatements in the other information.

Opinion on other matter prescribed by the Irish Collective Asset-management Vehicles Acts 2015 to 2021

In our opinion, the information given in the Directors' Report is consistent with the financial statements.

Matters on which we are required to report by exception

The Irish Collective Asset-management Vehicles Acts 2015 to 2021 requires us to report to you, if in our opinion, the disclosures of Directors' remuneration specified by law are not made. We have nothing to report in this regard.

Respective responsibilities and restrictions on use

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 7, the directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the ICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the ICAV or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A fuller description of our responsibilities is provided on IAASA's website at <https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements/>.

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the shareholders of the ICAV, as a body, in accordance with the Section 120 of the Irish Collective Asset-management Vehicles Act 2015. Our audit work has been undertaken so that we might state to the ICAV's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the ICAV and the ICAV's shareholders, as a body, for our audit work, for this report, or for the opinions we have formed.

DWS Invest (IE) ICAV

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

1. General Information about the ICAV

DWS Invest (IE) ICAV (the "ICAV") was registered in Ireland pursuant to the Irish Collective Asset-management Vehicles Acts 2015 and 2020 (the "Acts"), on 28 November 2022 under registration number C194848. The ICAV was incorporated under an Instrument of Incorporation, pursuant to the Acts, and was registered with the Central Bank of Ireland (the "Central Bank") on 12 July 2019. The ICAV is authorised by the Central Bank of Ireland (the "Central Bank") as an undertaking for collective investment in transferable securities ("UCITS") pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) ("UCITS Regulations"). The ICAV is organised in the form of an umbrella fund with segregated liability between each of the funds offered (collectively the "Funds" and individually "sub-fund" or "Fund"). Each fund offered by the ICAV will have a distinct portfolio of investments. The sole objective of the ICAV is the collective investment of its Funds in either or both transferable securities and other liquid financial assets of capital raised from the public and which operates on the principle of risk spreading, in accordance with the UCITS Regulations and the instrument of incorporation.

As at 31 December 2024, the ICAV has established nine sub-funds namely DWS Qi Global AC Equity Fund, which launched on 23 October 2019, DWS Noor Precious Metals Securities Fund, which launched as a result of a merger on 28 May 2021, Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund, which launched on 1 March 2023 and DWS Customised Global Investment Grade Bond Fund, which launched on 18 April 2024 (together the "Funds" and individually "sub-fund" or "Fund"). Xtrackers MSCI World UCITS Fund, Xtrackers MSCI China A UCITS Fund, Xtrackers MSCI ACWI UCITS Fund, Xtrackers MSCI USA UCITS Fund and Xtrackers S&P 500 UCITS Fund are approved but not launched as at 31 December 2024 and as such no additional information for these Funds has been presented in the financial statements.

The investment objective of the DWS Qi Global AC Equity Fund is to achieve long-term capital appreciation in excess of the MSCI ACWI Index (the "Benchmark"). In order to achieve the investment objective, the Fund will primarily invest in equities of large and mid-cap companies which are either listed and/or domiciled in, or have meaningful economic exposure, to both developed markets and emerging markets.

The investment objective of the DWS Noor Precious Metals Securities Fund is to achieve capital appreciation in the medium to long term by investing in a portfolio of Sharia compliant equity and equity-related securities of companies engaged in activities (exploration, mining and processing) related to gold, silver, platinum or other precious metals or minerals.

The investment objective of the Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund is to track the performance before fees and expenses of an index that provides exposure to the global investment grade fixed-rate debt markets, denominated in Euro and US Dollars across developed market countries.

The investment objective of the DWS Customised Global Investment Grade Bond Fund is to achieve a return above that of the benchmark, ICE BoA 1-5 Year Global Corporate Index (GVBC), USD hedged (the "Benchmark"). In order to achieve the investment objective, the Fund will invest globally in debt securities that have an investment grade status, as defined as BBB- and above, at the time of acquisition. In the case of a split rating involving three rating agencies, the second best will prevail.

2. Material Accounting policies

The principal accounting policies and estimation techniques applied in the preparation of these financial statements are set out below. These accounting policies have been applied consistently throughout the periods presented in these financial statements. Please refer to the general information section of the financial statements for details of how the ICAV is structured.

a) Basis of preparation

The financial statements have been prepared on a going concern basis for the financial year ended 31 December 2024.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

2. Material Accounting policies (continued)

a) Basis of preparation (continued)

The annual financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union, Irish statute comprising the ICAV Acts and the Central Bank UCITS Regulations.

The financial statements are prepared under the historical cost convention except for those financial assets which have been measured at fair value through profit or loss.

Significant accounting estimates and judgements

The preparation of financial statements in conformity with IFRS as adopted by the European Union requires the Directors to make certain accounting estimates and assumptions. Actual results may differ from these estimates and assumptions. The Directors believe that any estimates used in preparing the financial statements are reasonable and prudent. The areas of the ICAV's business that typically require such estimates are the determination of the fair value of financial assets and liabilities.

Judgements

The determination of what constitutes an active market and what inputs are "observable" requires judgment by the Directors. Information about judgements made in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in Note 2b, determination of functional currency. Information regarding active markets is included in the fair value hierarchy disclosure in Note 6.

New standards, amendments and interpretations issued and effective for the financial year beginning 1 January 2024

The following new and amended standards and interpretations did not have a significant impact on the ICAV's financial statements:

- Lease liability in a Sale and Leaseback (Amendments to IFRS 16 Leases).
- Classification of Liabilities as Current or Non-Current (Amendments to IAS 1).
- Disclosure of Supplier Finance Arrangements (Amendments to IAS 7 and IFRS 7).

There are no new standards, amendments or interpretations issued and effective for the financial year beginning 1 January 2024 that have a significant impact on the ICAV's financial position, performance or disclosures in its financial statements.

New standards, amendments and interpretations issued but not effective for the financial year beginning 1 January 2024 and not early adopted

The following new and amended standards and interpretations are not expected to have a significant impact on the ICAV's financial statements:

- First-time Adoption of International Financial Reporting Standards (Amendments to IFRS 1).
- Financial Instruments: Disclosures and its accompanying Guidance on implementing (Amendments to IFRS 7).
- Financial Instruments (Amendments to IFRS 9).
- Consolidated Financial Statements (Amendments to IFRS 10).
- Statement of Cash flows (Amendments to IAS 7).
- Lack of Exchangeability (Amendments to IAS 21).
- IFRS 18: Presentation and Disclosure in Financial Statements.
- IFRS 19: Disclosures: Subsidiaries without Public Accountability.

There are no other standards, amendments or interpretations to existing standards that are not yet effective that would be expected to have a significant impact on the ICAV.

DWS Invest (IE) ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

2. Material Accounting policies (continued)

b) Functional and presentational currency

The functional currency of the ICAV and each Fund is the currency of the primary economic environment in which the ICAV and each fund operates. If indicators of the primary economic environment are mixed, then management uses its judgement to determine the functional currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. The Directors have determined the functional and presentation currency of the ICAV is U.S. Dollars ("USD"). The Directors have determined the functional currency of DWS Qi Global AC Equity Fund, DWS Noor Precious Metals Securities Fund and DWS Customised Global Investment Grade Bond Fund is USD and the assets and liabilities of both funds are denominated in USD. The functional currency of Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund is determined as Norwegian Krone ("NOK") and the assets and liabilities of this fund are denominated in NOK, as this currency represents the functional currency of this Fund and as for the purpose of foreign exchange rate determination this Fund is considered to be foreign operations of the ICAV. The Directors have adopted the functional currency of the ICAV and each fund as its presentation currency.

Foreign currency transactions and conversion

Transactions in foreign currencies are translated into the functional currency at the exchange rate at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated into the functional currency of the Funds at the exchange rate at that date.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated into the functional currency of the Funds at the exchange rate at the date on which fair value was determined.

Any foreign currency differences arising on retranslation are recognised in the Statement of Comprehensive Income within net realised gains/(losses) on financial assets and liabilities at fair value through profit or loss.

Combined totals shown in the financial statements

The financial statements of the ICAV are measured in the currency of the primary economic operating environment in which the ICAV operates. The ICAV has adopted USD as the presentation currency of the combined totals shown in the financial statements.

For the purposes of producing the combined totals in the Statement of Financial Position, the Statement of Financial Position of each of the individual Funds are translated to USD using the exchange rates as at 31 December 2024.

For the purpose of producing the combined totals in the Statement of Comprehensive Income as well as proceeds from the subscription and redemption of shares in the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders from the accounts of the individual Funds, average exchange rates are used. A translation adjustment arises in the combined totals due to this methodology. This adjustment does not have any impact on the Net Asset Value ("NAV") of any individual Fund. For the financial year ended 31 December 2024, this adjustment amounted to USD (35,136,104) (31 December 2023: USD 11,528,843) and is presented in Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders.

For the purpose of producing the combined totals in the Statement of Cash Flows, the opening exchange rate is used to convert the Statement of Financial Position balances at 31 December 2023, the average exchange rate is used to convert the Statement of Comprehensive Income amounts for the financial year ended 31 December 2024 and the closing exchange rate is used to convert the Statement of Financial Position balances at 31 December 2024. A translation adjustment may arise in the combined totals due to this methodology. This adjustment does not have any impact on the cash flows of any individual Fund. For the financial year ended 31 December 2024, this adjustment amounted to USD (155,189) (31 December 2023: USD 30,440).

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

2. Material Accounting policies (continued)**c) Financial instruments*****Classification of financial assets and financial liabilities***

IFRS 9 contains three principal classification categories for financial instruments: measured at amortised cost, fair value through other comprehensive income ("FVOCI") and fair value through profit or loss ("FVTPL"). The classification (and subsequent measurement) of financial instrument is based on the business model in which the financial instrument is managed, and where relevant, its cash flow characteristics.

The Funds have classified their financial assets and financial liabilities into the following categories:

- Financial assets at FVTPL - investments in transferable securities, financial derivative instruments ("FDIs").
- Financial assets at amortised cost - cash and cash equivalents, cash due from broker, dividends receivable, subscriptions receivable.
- Financial liabilities at FVTPL - investments in financial derivative instruments ("FDIs").
- Financial liabilities at amortised cost - accrued expenses and payable for fund shares redeemed.

Recognition and derecognition***Recognition and initial measurement***

Purchases and sales of investments are recognised as of the day the transaction takes place (trade date), the date on which the Fund commits to purchase or sell the asset. Other financial assets and liabilities are recognised on the date on which they originated. Investments are initially recognised at fair value, and costs for all financial assets and financial liabilities carried at FVTPL are expensed as incurred. A financial asset or financial liability is measured initially at fair value plus, for an item not at fair value, transaction costs that are directly attributable to its acquisition or issue.

De-recognition

Investments are de-recognised when the rights to receive cash flows from the investments have expired or the relevant Fund has transferred substantially all risks and rewards of ownership. On derecognition of a financial asset, the difference between the carrying amount of the asset and consideration received is recognised in the Statement of Comprehensive Income. Financial liabilities are derecognised when the contractual obligations are discharged, cancelled or expired.

Subsequent measurement

Subsequent to initial recognition, all instruments classified at fair value through profit or loss were measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income. Assets and liabilities not carried at fair value were carried at amortised cost.

Amortised cost

Financial assets and financial liabilities other than those at FVTPL are held at amortised cost. These include cash and cash equivalents, cash due from/to broker and other assets and liabilities. The amortised cost of the financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition, minus principal repayments, plus or minus the accumulative amortisation using the effective interest method of any difference between the initial amount recognised and the maturity amount, and for financial assets, adjusted for any loss allowance.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the relevant Fund has access at that date. The fair value of a liability reflects its non-performance risk.

NOTES TO THE FINANCIAL STATEMENTS (continued)**For the financial year ended 31 December 2024**

2. Material Accounting policies (continued)**c) Financial instruments (continued)****i) Equities and fixed income securities**

When available, the Funds measure the fair value of an investment using the quoted price in an active market for that instrument. A market is regarded as 'active' if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The Funds measure instruments quoted in an active market at a last traded price, because this price provides a reasonable approximation of exit price. If there is no quoted price in an active market, then the Funds use valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

ii) Investment funds

Financial assets include investments in open-ended investment funds. Fair value is based on the underlying fund administrator's calculation of the net asset value per share as the best approximation of fair value (market value of the fund's assets less liabilities divided by the number of shares) which will be the latest NAV published by the investment funds, taking into account any adjustments that may be required to account for illiquidity, low trading volumes or any such factors that may indicate that the NAV may not be fair value.

iii) Futures contracts

Futures contracts are commitments either to purchase or sell a designated financial instrument, currency, commodity or an index at a specified future date for a specified price and may be settled in cash or another financial asset. Futures are standardised exchange-traded contracts. Initial margin requirements for futures are met in cash or other instruments, and changes in the future contract values are settled daily. Futures contracts have little credit risk because the counterparties are futures exchanges. Daily fluctuations in the value of a futures contract are recorded for financial reporting purposes as unrealised gains or losses by the relevant Fund and are recorded as a realised gain or loss when the position is closed. For the purposes of calculating unrealised gains or losses on futures contracts, a settlement price at the valuation date on the regulated exchange is taken into account.

iv) Forward foreign exchange contracts

Forward foreign exchange contracts are recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at their fair value. All forward foreign exchange contracts are carried as assets when their fair value is positive and as liabilities when their fair value is negative. Any change in fair values are recognised in the Statement of Comprehensive Income. The fair value of forward foreign exchange contracts that are not exchange traded is estimated at the amount that the Funds would receive or pay to terminate the contract at the financial year end date, taking into account current market conditions (volatility, appropriate yield curve) and the current creditworthiness of the counterparties. Specifically, the fair value of a forward foreign exchange contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates on the valuation date. The unrealised gain or loss on open forward foreign exchange contracts is calculated as the difference between the contract price and the forward price.

Impairment

The Funds recognise loss allowances for expected credit losses ("ECLs") on financial assets measured at amortised cost.

The Funds measure loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- financial assets that are determined to have low credit risk at the reporting date; and
- other financial assets for which credit risk (i.e. the risk of default occurring over the expected life of the asset) has not increased significantly since initial recognition.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

2. Material Accounting policies (continued)

c) Financial instruments (continued)

Impairment (continued)

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Funds consider reasonable and supportable information that is relevant and available without undue cost or effort.

d) Interest income

Interest income recognised in the Statement of Comprehensive Income is calculated using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant financial period.

e) Dividend income

Dividend income is recognised through profit and loss on an ex-dividend basis. Dividend income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income.

f) Expenses

All expenses are recognised in the Statement of Comprehensive Income on an accruals basis.

g) Net gains/(losses) on financial assets at fair value through profit or loss

Realised gains and losses on sale of investments are calculated based on the first-in first-out ("FIFO") method of the investment in local currency and are included within net gains/(losses) on financial assets at fair value through profit or loss in the Statement of Comprehensive Income.

Unrealised gains and losses on investments are the difference between the original cost of the investment and its value at the reporting year end and are included within net gains/(losses) on financial assets at fair value through profit or loss in the Statement of Comprehensive Income.

h) Cash and cash equivalents

Cash comprises current deposits held with the Depositary. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

i) Cash due from/to broker

Cash due from/to broker is margin cash and cash collateral which is held by or due to brokers for open futures contracts or derivatives and represents the exchange traded futures contracts' margin deposits held with brokers. This amount is the minimum deemed by the brokers and counterparties for collateral requirements and is as such restricted and is reported separately to the unrestricted cash on DWS Qi Global AC Equity Fund's Statements of Financial Position.

j) Transaction cost

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument.

NOTES TO THE FINANCIAL STATEMENTS (continued)**For the financial year ended 31 December 2024**

2. Material Accounting policies (continued)**j) Transaction cost (continued)**

Transaction costs on purchases and sales of equities are included in net gains/(losses) on financial assets at fair value through profit or loss in the Statement of Comprehensive Income. These costs include identifiable brokerage charges, commission, transaction related taxes and other market charges. Transaction cost, when incurred, are expensed immediately in the Statement of Comprehensive Income. Transaction costs are disclosed in Note 4.

k) Receivables and payables

Receivables for investments sold and payables for investments purchased awaiting settlement represent receivables and payables for securities sold and purchased. Receivables and payables for subscriptions and redemptions represent shares subscribed or redeemed that have been contracted for but not yet settled on the Statement of Financial Position. These amounts are recognised initially at fair value plus transaction costs, if applicable, and subsequently measured at amortised cost using the effective interest method. Other receivables are recognised initially at fair value and are subsequently measured at amortised cost.

l) Redeemable participating shares

In accordance with IAS 32 "Financial Instruments: Presentation" entities are required to classify puttable financial instruments, or components of instruments that impose on the entity an obligation to deliver to another party a pro rata share of the net assets of the entity only on liquidation, as liabilities, provided the financial instruments have particular features and meet specific conditions. All shares issued by the Funds in relation to the Funds meet the specific conditions to be classified as financial liabilities, the shares issued provide the shareholders with the right to require redemption for cash at the value proportionate to the investor's share in the relevant Fund's net assets at the redemption date. The Funds may satisfy the redemption request by a distribution of investments in-specie in certain instances.

In the event that a relevant Fund chooses to satisfy a redemption request by a distribution of investments of the relevant Fund in-specie, a shareholder will be allocated a portion of the relevant Fund's assets which have a net asset value ("NAV") equal to the NAV of the interest in the relevant Fund represented by the value of the shares being redeemed. Shareholders may then elect to receive such allocated assets. The risk of any decline in the value of an investment in a relevant Fund during the period between submission of a redemption notice and payment of redemption proceeds is borne by the investor.

m) Distributions

Dividends may be paid at the Directors' discretion. Details of the dividend policy can be found in the Prospectus of the ICAV and Supplements for the Funds. The Directors of the ICAV do not currently intend to pay out dividends in respect of the Funds.

n) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the relevant Fund has a legally enforceable right to offset the amounts and intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously. For the financial year ended 31 December 2024 and 31 December 2023, there were financial assets or liabilities subject to enforceable master netting arrangements or similar agreements which require disclosure. See note 6d) for more details.

o) Estimates policy

The preparation of financial statements in accordance with IFRS requires the Directors of the ICAV to make judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, contingent assets or liabilities, income and expenses. The estimates and associated assumptions are based on various factors that are believed to be reasonable under the circumstances, the results of which forms the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources.

DWS Invest (IE) ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

2. Material Accounting policies (continued)

o) Estimates policy (continued)

Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The key estimate made within these financial statements is the determination of fair value for the financial assets held at fair value through profit or loss. The information about assumptions used in determining fair values is included in Note 6.

3. Taxation

Under current law and practice, the ICAV qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a 'chargeable event'. A chargeable event includes any distribution payments to shareholders, any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the ICAV in respect of chargeable events in respect of:

- a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the ICAV, or the ICAV has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations;
- certain exempted Irish tax resident shareholders who have provided the ICAV with the necessary signed statutory declarations; and
- certain transfer of shares between spouses or civil partners.

Dividends, interest and capital gains (if any) received on investments made by the ICAV may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the ICAV or its shareholders.

4. Fees

The Funds may apply particular arrangements as regards the allocation and payment of the fees and expenses relating to the relevant Fund, namely that a Fund may operate on the basis of either a:

- (i) Platform Fee arrangement or
- (ii) All-in Fee arrangement or
- (iii) Manager Fee arrangement, (each as described below).

Where such an arrangement is contemplated this will be disclosed in the Supplement for the relevant Fund. If such a fee arrangement is not in place the details of the fees of the Manager, Administrator, Depositary, Investment Manager, Sub-Portfolio Manager and/or relevant Sub-Investment Manager (as applicable), will be set out in the Supplement.

Platform Fee

The ICAV may in respect of each Fund (as specified in the relevant Supplement) enter into an arrangement with a member of the DWS Group (the Platform Fee Arranger), where the Platform Fee Arranger will, in exchange for a Platform Fee (as defined in the relevant Supplement), pay the Platform Costs from time to time of the relevant Fund. For the avoidance of doubt, and as disclosed below, the Manager Fee is charged separately to and is not covered under the Platform Fee. Where applicable, the Platform Fee is calculated on the daily Net Asset Value per Fund or per Class of Shares or the Initial Issue Price (as will be indicated in the Supplement) and is accrued daily and payable monthly.

DWS Invest (IE) ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

4. Fees (continued)

Platform Fee (continued)

The Platform Costs are (i) fees and expenses payable to the Depositary and the Administrator and (ii) other Administrative Expenses (as more fully described in the section of the Prospectus entitled Fees and Expenses). The Platform Costs do not include the following fees, expenses and costs:

- (i) the Manager Fee;
- (ii) any taxes or fiscal charges which the Funds may be required to pay, if it should be payable, any value added tax or similar sales or services tax payable by the Funds (VAT) (all such taxes or fiscal charges), unless otherwise specified in the relevant Supplement;
- (iii) expenses arising out of any advertising or promotional activities in connection with the Funds; nor
- (iv) any costs and expenses incurred outside of the Funds' ordinary course of business such as legal fees incurred in prosecuting or defending, a claim or allegation, by or against, the Funds.

Currently only Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund operates a Platform Fee arrangement.

Share Class Classification	Manager Fee (per annum)	Platform Fee (per annum)	Total Fee (per annum)	Total expenses (NOK) financial year ended 31 December 2024
NOK ICH P Class	Up to 0.04%	Up to 0.11%	Up to 0.15%	(3,019,800)

All-in Fee

The ICAV may in respect of each Fund (as specified in the Supplement) charge an All-in Fee to cover the costs and expenses from time to time of the relevant Fund. Such All-in Fee shall be inclusive of and cover the following fees, expenses and costs:

- (i) the fees and expenses of the Depositary;
- (ii) the fees and expenses of the Administrator;
- (iii) the Manager Fee; and
- (iv) all the other charges and expenses which may be charged against the relevant Fund which are described above as Administrative Expenses.

The All-in Fee does not include any costs and expenses incurred outside of the Funds' ordinary course of business such as legal fees incurred in prosecuting or defending a claim or allegation, by or against, the Funds. Transaction costs are payable by the ICAV.

DWS Qi Global AC Equity Fund and DWS Customised Global Investment Grade Bond Fund operate an All-in Fee arrangement with regards to its respective share classes as outlined in the Fund's Supplement and detailed below.

The total annual charges and expenses of the relevant Fund can differ for the various Classes. The total annual charges and expenses per annum of each of the Classes of the Fund are represented by the respective All-in Fee, outlined in the table below for the relevant Share Class Classification, and calculated per annum by reference to the NAV of the relevant Fund attributable to that class. The All-in Fee accrues daily and shall be paid monthly in arrears.

Manager Fee and Expenses

DWS Noor Precious Metals Securities Fund operates neither a Platform Fee arrangement nor an All-in Fee arrangement as detailed in the section of the Prospectus entitled Fee Structures. Instead, the Fund operates with a Manager Fee paid to the Manager (the "Manager Fee") for the management of the Fund. In addition to the Manager Fee, fees and expenses of the Administrator and Depositary and other Administrative Expenses are payable by the DWS Noor Precious Metals Securities Fund as further described below.

The Manager receives a fee of 1.50% per annum of the Net Asset Value in respect of the Class USD LC and Class SGD LC Shares and 0.75% per annum of the Net Asset Value attributable to the Class USD IC Shares as specified in the table below. The Manager Fee will accrue daily and be payable quarterly in arrears. The Manager pays the fees of the Investment Manager and DWS Investment Management Americas Inc., the Sub-Investment Manager of the DWS Noor Precious Metals Securities Fund.

Share Class	Manager Fixed Fee (per annum)	Total expenses including Manager Fee (USD) 2024	Total expenses including Manager Fee (USD) 2023
DWS Noor Precious Metals Securities Fund USD LC Class	1.50%	(319,633)	(170,136)
DWS Noor Precious Metals Securities Fund USD IC Class	0.75%	(137,706)	(381,632)
DWS Noor Precious Metals Securities Fund SGD LC Class	1.50%	(37,979)	(36,548)

The additional fees and charges payable by the DWS Noor Precious Metals Securities Fund are:

- (i) the fees and expenses of the Administrator and Depositary, will be an aggregate amount of up to 0.06% of the Net Asset Value of the Fund per annum (accruing daily and payable quarterly in arrears). Global custody and transaction charges shall be charged at normal commercial rates;
- (ii) the fees of the Sharia Advisor which will be USD 28,000 per annum (accruing daily and payable quarterly in arrears); and
- (iii) all the other charges and expenses which may be charged against the Fund are described under Administrative Expenses in the section of the Prospectus entitled Fees and Expenses.

The Manager, in its role as distributor of the Fund, and/or any sub-distributors are entitled to receive and retain for their own account the front-end load and may charge different rates ranging from 0% up to 5% for the Class USD LC and Class SGD LC shares. Some sub-distributors may charge other fees not listed in the Prospectus. Investors should check with the relevant sub-distributor for details as such fees may depend on the specific nature of the services provided by such sub-distributor.

DWS Invest (IE) ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

4. Fees (continued)

Audit fees

Audit fees charged by the Auditor for services rendered during the financial year ended 31 December 2024 were EUR 55,000 (exclusive of VAT) (financial year ended 31 December 2023: EUR 43,000 (exclusive of VAT)) and were paid, inclusive of VAT, as part of administrative expenses mentioned above.

Establishment expenses

The cost of establishing the ICAV and the initial Fund (DWS Qi Global Equity AC Fund), obtaining authorisation of the ICAV and approval of the Fund from the Central Bank, filing fees, the preparation and printing of the Prospectus and other documentation not of a promotional nature, plus the fees of all professionals have been borne by and paid out of the All-in Fee of the initial Fund.

The cost of establishing the DWS Noor Precious Metals Securities Fund is borne by the Manager. The costs of establishing the Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund and DWS Customised Global Investment Grade Bond Fund are borne by the Investment Manager.

Transaction cost

As disclosed in Note 2j, transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of the financial assets or financial liabilities. The total transaction costs incurred by DWS Qi Global AC Equity Fund for the financial year ended 31 December 2024 were USD 24,273 (financial year ended 31 December 2023: USD 107,926). The total transaction costs incurred by DWS Noor Precious Metals Securities Fund for the financial year ended 31 December 2024 were USD 35,404 (financial year ended 31 December 2023: USD 76,174). The total transaction costs incurred by Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund for the financial year ended 31 December 2024 were NOK 105,695 (financial period ended 31 December 2023: NOK 58,379). The total transaction costs incurred by DWS Customised Global Investment Grade Bond Fund for the financial period ended 31 December 2024 were USD 2,370.

5. Share capital

Authorised

The share capital of the ICAV is 1,000,000,000,000 unclassified participating shares of no par value. The minimum issued share capital of the ICAV is 2 shares of no par value. The maximum share capital of the ICAV is 1,000,000,000,000 unclassified shares of no par value.

The unclassified shares are available for issue as Shares. There are no rights of pre-emption attaching to the Shares in the ICAV.

DWS Invest (IE) ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

6. Financial instruments and associated risks

The Funds are exposed to a variety of financial risks in pursuing its stated investment objective and policy such as: credit risk, liquidity risk, leverage risk, stock connect risk, counterparty risk and market risk (which in turn includes currency risk, interest rate risk and price risk). The Funds take exposure to certain of these risks to generate investment returns on its portfolio, although these risks can also potentially result in a reduction in the Funds' net assets. The Investment Manager will use its best endeavours to minimise the potentially adverse effects of these risks on the Funds' performance where it can do so while still managing the investments of the Funds in a way that is consistent with the Funds' investment objective and policy.

a) Market risk

Market price risk is the risk that the fair value of a financial instrument or its future cash flows will fluctuate because of changes in market prices.

The Funds' financial assets at fair value through profit or loss consist of corporate bonds, equities, investment funds, futures contracts and forward foreign exchange contracts. The values of these instruments are determined by market forces and accordingly there is a risk that market prices can change in a way that is adverse to the Funds' performance.

DWS Qi Global AC Equity Fund employed the risk management technique known as relative value-at-risk ("VaR") to assess the Fund's global exposure and to ensure that the Fund's use of derivative instruments is within the limits specified by the Central Bank. The relative VaR of the Fund shall not exceed twice the VaR of a reference portfolio that does not contain derivatives. Such reference portfolio is represented by the Benchmark. The relative VaR calculation is carried out daily using a one tailed 99% confidence level for a holding period of 10 business days and a historical observation period of 250 business days.

The below table details the approach for the DWS Qi Global AC Equity Fund, the minimum, maximum and average daily VaR utilisation (relative VAR) that occurred during financial year ending 31 December 2024 and 31 December 2023 expressed as a percentage of the VaR limit.

	31 December 2024	31 December 2023
Lowest utilisation of the VaR limit	4.52%	4.82%
Highest utilisation of the VaR limit	6.69%	9.97%
Average utilisation of the VaR limit	5.36%	7.74%

The Investment Manager of DWS Customised Global Investment Grade Bond Fund uses a risk management technique known as value-at-risk (VaR) to measure the Fund's global exposure and to seek to ensure that the use of FDIs by the Fund is within regulatory limits. The Investment Manager will use the relative VaR measure. The relative VaR on the Fund's portfolio is calculated to ensure that it never exceeds two times that of the ICE BoA 1-5 Year Global Corporate Index (GVBC), USD hedged Index. VaR calculations will be carried out daily using a one tailed 99% confidence level for a holding period of 20 business days and a historical observation period of 250 business days.

The below table details the approach for the DWS Customised Global Investment Grade Bond Fund, the minimum, maximum and average daily VaR utilisation (relative VAR) that occurred during financial year ending 31 December 2024 expressed as a percentage of the VaR limit.

	31 December 2024
Lowest utilisation of the VaR limit	0.00%
Highest utilisation of the VaR limit	1.21%
Average utilisation of the VaR limit	1.08%

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

6. Financial instruments and associated risks (continued)

a) Market risk (continued)

Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund will employ the commitment approach to assess the Fund's global exposure and to ensure that the Fund's use of derivative instruments is within the limits specified by the Central Bank. Global exposure will be calculated daily. While the Fund may be leveraged through the use of the FDIs, any such leverage would not be expected to be in excess of 100% of the Fund's Net Asset Value.

DWS Noor Precious Metals Securities Fund does not currently intend to use financial derivative instruments.

(i) Foreign currency risk

Currency risk is defined as the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Funds are exposed to currency risk as monetary assets and liabilities of the Funds may be denominated in a currency other than the functional currency of the Funds. Currency risk on non-monetary assets i.e. equities, is included in market price risk. All share classes not denominated in USD are exposed to currency risk at the ICAV level. See note 5 for reference to value of non-USD share classes.

The fluctuations in the rate of exchange between the currency in which the asset or liability is denominated and the functional currency could result in an appreciation or depreciation in the fair value of that asset. In accordance with the Funds' policy, the Investment Manager monitors the Funds' currency exposure on a regular basis and the Investment Manager of DWS Qi Global AC Equity Fund, Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund and DWS Customised Global Investment Grade Bond Fund may attempt to mitigate this risk by using financial derivative instruments.

DWS Qi Global AC Equity Fund, Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund and DWS Customised Global Investment Grade Bond Fund may use financial derivative instruments on behalf of a specific Class in order to hedge some or all of the foreign exchange risk for such Class. The Fund that hedges foreign exchange risk for any Class may enter into forward currency contracts in order to hedge some or all of the foreign exchange risk for the relevant Class. To the extent that hedging is successful, the performance of the relevant Class is likely to move in line with the performance of the underlying assets.

The Investment Manager of DWS Noor Precious Metals Securities Fund monitors the Fund's currency exposure on an intraday basis. The Board of Directors monitor these exposures based on reporting from the Investment Manager and the Fund Administrator.

The use of hedged currency Classes may substantially limit holders of the relevant classes from benefiting if the currency of each of these Classes falls against the Functional Currency and/or the currency in which the assets of the Fund are denominated. The Funds had not engaged in any hedging as at 31 December 2024 (31 December 2023: Nil).

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

6. Financial instruments and associated risks (continued)

a) Market risk (continued)

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The DWS Qi Global AC Equity Fund and DWS Noor Precious Metals Securities Fund hold equity investments which are non-interest bearing. Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund and DWS Customised Global Investment Grade Bond Fund holds fixed interest securities that expose that Fund to fair value interest rate risk.

The Funds are subject to interest rate risk on the cash it holds, the value of which is as disclosed in the Statement of Financial Position. The Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates as any excess cash is invested at short term market interest rates.

DWS Qi Global AC Equity Fund and DWS Customised Global Investment Grade Bond Fund also have indirect exposure to interest rate risk through their investments into futures contracts, whereby the value of the underlying asset may fluctuate as a result of a change in interest rates.

The Funds' interest rate risk is monitored on an ongoing basis by the Investment Manager.

The following table explains the monetary impact on the Net Assets of those Funds which hold interest bearing securities, assuming there is a 0.5% movement in interest rates as at 31 December 2024.

The Funds not mentioned below are mainly investing in non-interest bearing assets or its investments have a very short time to maturity. As a result, those Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates.

(iii) Other price risk

Price risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, recessions, or other events could have a significant impact on the relevant Fund and market prices of its investments.

The Funds are exposed to price risk arising from its investments in financial instruments. The exposures of the Funds to price risk are the fair value of the investments held.

b) Liquidity risk

Investors often describe the speed and ease with which an asset can be sold and converted into cash as its liquidity. Most of the investments owned by the Funds can usually be sold promptly at a fair price and therefore can be described as relatively liquid but the Funds may also hold investments that may become illiquid, which means they cannot be sold quickly or easily. Some investments are illiquid because of legal restrictions, the nature of the investment itself, settlement terms, or for other reasons. Sometimes, there may simply be a shortage of buyers. If the Funds have trouble selling an investment, it can lose value or incur extra costs. In addition, illiquid investments may be more difficult to value accurately and may experience larger price changes. This can cause greater fluctuations in the Funds' value. Certain securities may be difficult or impossible to sell at the time and the price that the seller would like. The seller may have to lower the price to effect a secondary market sale, sell other securities instead or forego an investment opportunity, any of which could have a negative effect on fund management or performance.

All liabilities of the Funds as at 31 December 2024 and 31 December 2023 including the net assets attributable to redeemable participating shareholders fall due within three months.

DWS Invest (IE) ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

6. Financial instruments and associated risks (continued)

b) Liquidity risk (continued)

The Funds employ appropriate liquidity management procedures to enable it to monitor the liquidity risk of the Funds so as to ensure that the liquidity profile of investments of the Funds comply with the underlying obligations of the Funds taking into account the Funds' investment strategy, liquidity profile and the redemption policy. Tools and arrangements such as the ability to limit redemptions, apply redemption fees and temporary suspension of trading may be imposed with the approval of the Directors in order to manage the liquidity risk of the Funds and to ensure the fair treatment of shareholders. In addition, Shareholders have the ability to redeem their investments in the Funds in accordance with the redemption policies of the Funds as set out in the Prospectus.

The table below sets out the Funds gross-settled derivative financial instruments at 31 December 2024:

c) Leverage risk

Subject to any investment restrictions contained in the relevant Fund's Supplement to the Prospectus, the Funds may use a degree of leverage in making investments. The extent of such leverage is outlined in the relevant Fund's Supplement to the Prospectus.

DWS Invest (IE) ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

6. Financial instruments and associated risks (continued)

c) Leverage risk (continued)

The Funds may obtain leverage by, among other methods, purchasing or entering into derivative instruments that are inherently leveraged, such as options, futures, forward contracts and swaps.

The use of leverage increases risk and results in material interest expense. A Funds' use of leverage and derivative instruments results in certain additional risks. Leveraged investments, by their nature, increase the potential loss to investors resulting from any depreciation in the value of such investments.

Consequently, a relatively small price movement in the security underlying a leveraged instrument may result in substantial losses.

Furthermore, the use of leverage exposes the Funds to the risk of counterparties foreclosing on the collateral used to margin leveraged positions, resulting in materially increased losses on such positions. Access to leverage and financing could be impaired by many factors, including market forces or regulatory changes, and there can be no assurance that the Funds will be able to secure or maintain adequate leverage or financing.

Disclosed in the table below is the leverage employed during the financial year ended 31 December 2024 and 31 December 2023:

Fund	31 December 2024	31 December 2023
DWS Qi Global AC Equity Fund	3.69%	5.95%
DWS Customised Global Investment Grade Bond Fund*	44.10%**	-

* This Fund launched on 18 April 2024 and therefore no comparative figures are shown.

** The UCITS Gross leverage is calculated according to the "sum of notionals" methodology as prescribed by the CESR 10-788 guidelines

DWS Noor Precious Metals Securities Fund and Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund do not currently leverage through the use of financial derivative instruments.

d) Credit risk

Credit risk is the risk that an issuer or counterparty may be unable to meet a commitment that it has entered into with the Funds. The Funds have exposure to counterparty risk on cash balances held with the Depositary. Investments in equity securities are not exposed to credit risk except for exposure to the Depositary.

The ICAV's Depositary is State Street Custodial Services (Ireland) Limited. All of the assets and cash of the Funds, with the exception of margin cash, is held within the custodial network of the Depositary. Bankruptcy or insolvency of the Depositary or of its parent company, State Street Corporation, may cause the Funds' rights with respect to its equity securities and cash held by the Depositary to be delayed or limited. The long-term credit rating of State Street Corporation, the ultimate parent of the Depositary, as of 31 December 2024 rated based on S&P rating agency ratings was A (31 December 2023: A).

All securities and cash at bank balances are held by the Depositary through its affiliates in the State Street group, or through a sub-depositary within the State Street custodial network. Derivatives, cash deposited as margin or other similar investments/monies deposited by or entered into on behalf of the ICAV with a counterparty, options exchange, clearing broker or other parties are not held within the State Street custodial network. The Depositary is therefore not liable in any way for the default of any counterparty.

DWS Invest (IE) ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

6. Financial instruments and associated risks (continued)

d) Credit risk (continued)

The Investment Manager may use forward currency contracts to hedge against foreign currency exposure. These have a similar credit or default risk to a regular currency spot transaction. Forward currency contracts are 'Over the Counter' traded and therefore have counterparty risk which arises from the potential failure of counterparties to meet their obligations under the contract or arrangement. Forward contracts also carry roll risk, which is the risk that when a forward contract expires, a new forward to replace the expired one cannot be put into place at the same cost or on the same hedge basis. This may occur due to changes in market liquidity or interest rates, resulting in a potential slippage or loss in the hedge position due to the contract expiration and roll. As at 31 December 2024 the Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund and DWS Customised Global Investment Grade Bond Fund had entered into forward currency contracts. As at 31 December 2024 the DWS Qi Global AC Equity Fund and DWS Noor Precious Metals Securities Fund had not entered into any forward currency contracts (31 December 2023: Nil).

The Funds' credit risk is monitored on an ongoing basis by the Investment Manager.

The Investment Manager utilises well known rating agencies to determine credit quality of interest bearing securities.

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's or Moody's. In the following tables, investments that are rated as BBB- and above are included within Investment Grade and all investments below BBB- are included in Non Investment Grade.

The following tables detail the credit rating profile of the debt instruments held by Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund and DWS Customised Global Investment Grade Bond Fund as at 31 December 2024:

	Currency	Investment grade % of debt instruments	Non-investment grade % of debt instruments	Not rated % of debt instruments	Total % of debt instruments

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

6. Financial instruments and associated risks (continued)

e) Counterparty risk

The Funds may have credit exposure to counterparties by virtue of investment positions in futures contracts held by the relevant Fund. To the extent that a counterparty defaults on its obligations and the Funds are delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its position, lose income and incur costs associated with asserting its rights. The Investment Manager may engage in various portfolio strategies on behalf of the Funds through the use of futures contracts.

Due to the nature of futures contracts, cash to meet margin monies may be held by a broker and there can be no guarantee that such monies will be returned to the relevant Fund.

All cash balances are held by State Street Bank London which had a credit rating of AA- (31 December 2023: AA-) at the financial year ended 31 December 2024.

As at 31 December 2024 all margin cash is held with the broker Deutsche Bank AG which has a long-term credit rating of A (31 December 2023: A) (based on S&P rating agency ratings).

As at 31 December 2024 all forward foreign currency exchange contracts are held with the brokers Morgan Stanley which has a long-term credit rating of A+ (31 December 2023: A+), Deutsche Bank AG which has a long-term credit rating of A and Royal Bank of Canada AA- (based on S&P rating agency ratings).

As at 31 December 2024 all futures contracts are held with the broker Deutsche Bank AG which has a long-term credit rating of A (based on S&P rating agency ratings).

f) Stock Connect risk

DWS Qi Global AC Equity Fund and DWS Noor Precious Metals Securities may invest in China A Shares. Under Stock Connect, overseas investors may be allowed, subject to the requirements of the Chinese Central Bank and any rules and regulations issued/amended from time to time, to seek exposure to stocks issued by companies listed on exchanges in the People's Republic of China ("PRC") by directly trading certain eligible A-shares through the so-called Northbound Trading Links. Stock Connect comprises two Northbound Trading Links (for investment in A-shares), one between the Shanghai Stock Exchange ("SSE") and The Stock Exchange of Hong Kong Limited ("SEHK"), and the other between the Shenzhen Stock Exchange ("SZSE") and SEHK (the Northbound Trading Links).

The Shanghai-Hong Kong Stock Connect is a securities trading and clearing links program developed by Hong Kong Exchanges and Clearing Limited ("HKEx"), China Securities Depository and Clearing Corporation Limited ("ChinaClear") and SSE, with an aim to achieve mutual stock market access between Shanghai and Hong Kong. Similarly, the Shenzhen-Hong Kong Stock Connect is a securities trading and clearing links program developed by HKEx, ChinaClear and SZSE, with an aim to achieve mutual stock market access between Shenzhen and Hong Kong.

Investors in Funds which seek to gain exposure to China A-shares by investing through Stock Connect should be aware of the additional risks such as Quota limitations risks, suspension risks, custody risk etc. associated with such investments which are detailed in the Prospectus.

g) Fair Value Hierarchy

The Funds are required to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 - Quoted market price in an active market for an identical instrument.
- Level 2 - Valuation techniques based on observable inputs. This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

NOTES TO THE FINANCIAL STATEMENTS (continued)**For the financial year ended 31 December 2024**

6. Financial instruments and associated risks (continued)**g) Fair Value Hierarchy (continued)**

- Level 3 - Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs could have a significant impact on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability. The determination of what constitutes 'observable' requires significant judgement by the Investment Manager. The Investment Manager considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

The Funds recognise transfers between levels of the fair value hierarchy as at the end of the reporting period during which the change has occurred. There were no transfers between Level 1, Level 2 and Level 3 of the fair value hierarchy during the financial years ended 31 December 2024 and 31 December 2023.

As at 31 December 2024 and 31 December 2023 all financial assets and liabilities held at fair value through profit or loss investments held on DWS Qi Global AC Equity Fund and DWS Noor Precious Metals Securities Fund were classified as Level 1 with the exception of equity position Alrosa PJSC held by DWS Noor Precious Metals Securities Fund which was priced at nil and classified as Level 3 as at 31 December 2024 and 31 December 2023. As at 31 December 2024 all financial assets and liabilities held at fair value through profit or loss investments held on Xtrackers Global Aggregate Corporate Bond 1-10 Index Fund and DWS Customised Global Investment Grade Bond Fund were classified as Level 2, with the exception of the futures contracts held on DWS Customised Global Investment Grade Bond Fund which were classified as Level 1.

The carrying value of all the assets and liabilities measured at amortised cost approximates their fair value and are classified as Level 2 in the fair value hierarchy.

7. Related party disclosures**Directors**

The Directors of the ICAV are Mr. Michael Whelan, Mr. Gerry Grimes and Mr. Felix Jueschke. Mr. Felix Jueschke is an employee of DWS Group.

Mr. Michael Whelan and Mr. Gerry Grimes each are entitled to remuneration for their services as directors provided however that the aggregate emoluments of Directors in respect of any twelve month period shall not exceed EUR 75,000. The Directors will be entitled to be reimbursed for their reasonable out of pocket expenses incurred in discharging their duties as directors. The total Directors' fees earned for the financial year was USD 31,198 (31 December 2023: USD 33,120) of which USD Nil (31 December 2023: USD Nil) was outstanding at the financial year end.

Mr. Felix Jueschke did not receive directors' fees from the ICAV for the financial year ended 31 December 2024 (31 December 2023: Nil), nor did he receive directors' fees from the Investment Manager's fee paid by the ICAV for the financial year ended 31 December 2024 (31 December 2023: Nil).

Transactions with Manager and the delegates

The fee arrangements with the manager, investment manager and sub-investment manager are discussed in Note 4 of these financial statements.

DWS Invest (IE) ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

10. Significant events during the financial year (continued)

On 10 May 2024 the settlement date for the receipt and dispatch of monies for subscriptions and redemptions of shares was changed from three business days after the relevant dealing day to two business days after the relevant dealing day, in relation to the DWS Qi Global AC Equity Fund.

On 10 May 2024 a new supplement for DWS Qi Global AC Equity Fund was issued to include the change in settlement date and to include sustainability related disclosures.

On 14 June 2024 DWS Qi Global AC Equity Fund EUR FC Class launched.

On 28 June 2024 a new supplement for DWS Noor Precious Metals Securities Fund was issued to include sustainability related disclosures.

There were no other significant events affecting the ICAV during the financial year which require adjustment to or disclosures in these financial statements.

11. Significant events since the financial year end

On 2 April 2025, the US government announced a new universal tariff on imports as well as higher tariffs on imports from certain trading partners, including the European Union and China. In response, certain trading partners of the US have announced retaliatory tariffs on imports from the US. The announcement of the tariffs negatively impacted stock markets globally. The possible medium to long-term effects on individual markets and sectors cannot be conclusively assessed in view of the uncertainty at the time of preparing this report. The announcement of the new tariffs does not provide additional information about the situation that existed at 31 December 2024, and is therefore a non-adjusting event. As such, its post year end impact has not been taken into account in the recognition and/or measurement of the Company's assets or liabilities as at 31 December 2024.

There were no other significant events affecting the ICAV since the financial year end date which require adjustment to or disclosures in these financial statements.

12. Approval of the financial statements

The financial statements were approved by the Directors of the ICAV on 17 April 2025.

DWS Qi Global AC Equity Fund

The Prospectus including the relevant Fund Supplement, the Instrument of Incorporation, the Key Investor Information Document (the "KIID"), the annual and semi-annual reports as well as a list containing all purchases and sales which have been made during the reporting period can be obtained free of charge from the Investment Manager, and for Swiss Shareholders these can be obtained free of charge from the Swiss Representative.

The Fund is recognised for distribution in the U.K. under the Financial Services and Markets Act, 2000. Most or all of the protections of the U.K. regulatory system may not apply. In addition, recourse to the U.K. Financial Services Compensation Scheme (the "Scheme") may not be available.

Details of the Scheme are available from the distributor of the sub-funds in the U.K., DWS Investments UK Limited, the Financial Conduct Authority or from the Scheme itself at Cottons Centre, Cotton Lane, London, SE1 2QB, United Kingdom.

Derivative Instruments and Efficient Portfolio Management Techniques

The Funds may employ the techniques, instruments and FDIs from time to time under the conditions and within the limits laid down by the Central Bank and the conditions set out in the Prospectus and the Supplement for investment purposes and for efficient portfolio management purposes. The Funds may use Financial Derivative Instruments such as Forward FX Contracts, Non-Deliverable Forwards, Currency Futures, Equity Futures, Equity Options and Total Return Swaps in line with the provisions in prospectus. The Funds may also enter into securities lending transactions for efficient portfolio management purposes only in accordance with the conditions and limits set down by the Central Bank from time to time.

For financial derivative instruments that were entered into during the financial year which remained open at year end and the resulting amount of commitments/exposures, please refer to the Portfolio Statement. FDIs and EPM techniques and instruments were used during the financial year.

Soft Commissions

There were no soft commission transactions during the financial year ended 31 December 2024 and financial year ended 31 December 2023.

Securities Finance Transactions

There were no securities finance transactions during the financial year ended 31 December 2024 and financial year ended 31 December 2023.

Directed Brokerage services

There were no brokerage fee paid or accrued to authorised participants during the financial year ended 31 December 2024 and financial year ended 31 December 2023.

APPENDICES (Unaudited) (continued)

APPENDIX 3

Remuneration Disclosure

DWS Investment S.A. (the “Company”) is a subsidiary in DWS Group GmbH & Co. KGaA (“DWS KGaA”), and is subject to the regulatory requirements of the Fifth Directive on Undertakings for Collective Investment in Transferable Securities (“UCITS V Directive”) and the Alternative Investment Fund Management Directive (“AIFM Directive”) as well as the European Securities and Markets Authority’s Guidelines on Sound Remuneration Policies (“ESMA Guidelines”) with regard to the design of its remuneration system.

Remuneration Policy & Governance

The Company is governed by the Group-wide Compensation Policy that DWS KGaA has adopted for itself and all of its subsidiaries (“DWS Group” or only “Group”).

In line with the Group structure, committees have been set up to ensure the appropriateness of the compensation system and compliance with regulatory requirements on compensation and are responsible for reviewing it.

As such the DWS Compensation Committee was tasked by the DWS KGaA Executive Board with developing and designing sustainable compensation principles, making recommendations on overall compensation and ensuring appropriate governance and oversight with regard to compensation and benefits for the Group.

Furthermore, the Remuneration Committee was established to support the Supervisory Board of DWS KGaA in monitoring the appropriate structure of the remuneration systems for all Group employees. This is done by testing the consistency of the remuneration strategy with the business and risk strategy and taking into account the effects of the remuneration system on the group-wide risk, capital and liquidity management.

The internal annual review at DWS Group level concluded the design of the remuneration system to be appropriate and no significant irregularities were recognized.

Compensation Structure

Employee compensation consists of fixed and variable compensation.

Fixed compensation remunerates employees for their skills, experience and competencies, commensurate with the requirements, size and scope of their role.

Variable compensation takes into account performance at group, divisional and individual level. Variable compensation generally consists of two elements – the “Franchise Component” and the “Individual Component”.

The Franchise Component is determined based upon the performance of three Key Performance Indicators (KPIs) at DWS Group level. For the performance year 2024 these were: Adjusted Cost Income Ratio (“CIR”), long term Net Flows and ESG metrics.

The individual component of variable compensation takes into account a number of financial and non-financial factors, relativities within the peer group, and retention considerations. Variable compensation can be reduced accordingly or cancelled completely in the event of negative performance contributions or misconduct. In principle, it is only granted and paid out if the granting is affordable for the Group. Guaranteed variable compensation is not normally granted to employees. On an exceptional basis, guaranteed variable compensation can be granted to new hires but only during their first year of employment.

The compensation strategy is designed to achieve an appropriate balance between fixed and variable compensation. This helps to align employee compensation with the interests of customers, investors and shareholders, as well as to industry standards. At the same time, it ensures that fixed compensation represents a sufficiently high proportion of total compensation to allow the Group full flexibility in granting variable compensation.

DWS Invest (IE) ICAV
APPENDICES (Unaudited) (continued)

APPENDIX 3 (continued)

Remuneration Disclosure (continued)

Determination of variable compensation and appropriate risk-adjustment

The total amount of variable compensation is subject to appropriate risk-adjustment measures which include ex-ante and ex-post risk adjustments. The robust methodology is designed to ensure that the determination of variable compensation reflects Group's risk-adjusted performance as well as the capital and liquidity position.

A number of considerations are used in assessing the performance of the business units. Performance is assessed in the context of financial and non-financial targets based on balanced scorecards. The allocation of variable compensation to the infrastructure areas and in particular to the control functions depends on the overall results of the Group, but not on the results of the business areas they oversee.

Principles for determining variable compensation apply at individual employee level which detail the factors and metrics that must be taken into account when making IVC decisions. These include, for instance, investment performance, client retention, culture considerations, and objective setting and performance assessment based on the "Total Performance" approach. Furthermore, any control function inputs and disciplinary sanctions and their impact on the VC have to be considered as well.

Sustainable Compensation

Sustainability and sustainability risks are an essential part that determine the variable compensation. Therefore, the remuneration policy is fully in line and consistent with sustainability risks. Hence, DWS Group incentivises behaviour that benefits both interest of clients and the long-term performance of the firm. Relevant sustainability factors are reviewed on a regular basis and incorporated in the design of the compensation system.

Compensation for 2024

The DWS Compensation Committee has monitored the affordability of VC for 2024 and determined that the Group's capital and liquidity levels remain above regulatory minimum requirements, and internal risk appetite threshold.

As part of the overall 2024 variable compensation granted in March 2025, the Franchise Component is awarded to eligible employees in line with the assessment of the defined KPIs. The Executive Board recognizing the considerable contribution of employees and determined a target achievement rate of 90.0% for 2024.

DWS Invest (IE) ICAV
APPENDICES (Unaudited) (continued)

APPENDIX 3 (continued)

Remuneration Disclosure (continued)

Identification of Material Risk Takers

In accordance with the regulatory requirements, the Company has identified Material Risk Takers. The identification process was carried out in accordance with the Group's policies and is based on an assessment of the impact of the following categories of staff on the risk profile of the Company or on a fund it manages: (a) Board Members/Senior Management, (b) Portfolio/Investment managers, (c) Control Functions, (d) Staff heading Administration, Marketing and Human Resources, (e) other individuals (Risk Takers) in a significant position of influence, (f) other employees in the same remuneration bracket as other Risk Takers, whose roles have an impact on the risk profile of the Company or the Group. At least 40% of the VC for Material Risk Takers is deferred. Additionally, at least 50% of both, the upfront and the deferred proportion, are granted in the Group share-based instruments or fund-linked instruments for Key Investment Professionals. All deferred components are subject to a number of performance conditions and forfeiture provisions which ensure an appropriate ex-post risk adjustment. In case the VC is lower than EUR 50,000, the Material Risk Takers receive their entire variable compensation in cash without any deferral.

Aggregate Compensation Information for the Company for 2024¹

Number of employees on an annual average	106
Total Compensation ²	EUR 16,564,921
Fixed Pay	EUR 13,170,723
Variable Compensation	EUR 3,394,198
Thereof: Carried Interest	EUR 0
Total Compensation for Senior Management ³	EUR 1,689,020
Total Compensation for other Material Risk Takers ⁴	EUR 0
Total Compensation for Control Function employees	EUR 2,422,471

¹ In cases where portfolio or risk management activities have been delegated by the Company, the compensation data for delegates are not included in the table.

² Considering various elements of remuneration as defined in the ESMA Guidelines which may include monetary payments or benefits (such as cash, shares, options, pension contributions) or none (directly) monetary benefits (such as fringe benefits or special allowances for car, mobile phone, etc.).

³ Senior Management refers to the members of the Management Board of the Company, only. Members of the Management Board meet the definition of managers. Apart from the members of Senior Management, no further managers have been identified.

⁴ Identified risk takers with control functions are shown in the line "Control Function employees".
