Semiannual Report 2020/2021

Contents

| Semiannual report 2020/2021 for the period from October 1, 2020, through March 31, 2021 (in accordance with article 103 of the German Investment Code (KAGB)) | |
|---|---|
| General information | 2 |
| Semiannual report DWS Global Growth | 6 |

General information

Performance

The investment return, or performance, of a mutual fund investment is measured by the change in value of the fund's units. The net asset values per unit (= redemption prices) with the addition of intervening distributions, which are, for example, reinvested free of charge within the scope of investment accounts at DWS Investment GmbH, are used as the basis for calculating the value; in the case of domestic reinvesting funds, the domestic investment income tax – following any deduction of foreign withholding tax – plus solidarity surcharge charged to the fund are added. Performance is calculated in accordance with the "BVI method". Past performance is not a guide to future results.

The corresponding benchmarks – if available – are also presented in the report. All financial data in this publication is as of March 31, 2021 (unless otherwise stated).

Sales prospectuses

The sole binding basis for a purchase are the current version of the sales prospectus, including the Terms and Conditions of Investment, and the key investor information document, which are available from DWS Investment GmbH or any branch of Deutsche Bank AG as well as from other paying agents.

Information about the all-in fee

The all-in fee does not include the following expenses:

- a) any costs that may arise in connection with the acquisition and disposal of assets;
- b) any taxes that may arise in connection with administrative and custodial costs;
- c) the costs of asserting and enforcing the legal claims of the investment fund.

The details of the fee structure are set out in the current sales prospectus.

Coronavirus crisis

The coronavirus has spread since January 2020 and has subsequently led to a serious economic crisis. The rapid proliferation of the virus was reflected in, among other things, significant price market distortions and substantially increased volatility at the same time. Restrictions on freedom of movement, repeated lockdown measures, production stoppages, as well as disrupted supply chains, are exerting major pressure on downstream economic processes, which caused global economic prospects to deteriorate considerably. Even though gradual recovery was to be observed again in the markets in the interim – due, among other things, to assistance programs in the context of monetary and fiscal policy as well as the introduction of vaccination campaigns – the actual or possible mid- to long-term effects of the crisis on the economy, individual markets and sectors, as well as the social implications, cannot be reliably evaluated or adequately forecast at the time of preparing this report in light of the pace of the global spread of the virus and the associated high degree of uncertainty. Consequently, there may still be a material impact on the respective investment fund's assets. A high level of uncertainty exists in relation to the financial implications of the pandemic, as these are dependent on external factors such as the spread of the virus and the measures taken by individual governments and central banks, the successful stemming of the development of infection rates and the speedy and sustainable restart of the economy.

The Asset Management Company of the investment fund is therefore continuing its efforts, within the framework of its risk management strategy, to assess these uncertainties and their possible impact on the activities, liquidity and performance of the investment fund. The Asset Management Company is taking all measures deemed appropriate to protect investor interests to the greatest possible extent. In coordination with the service providers, the Asset Management Company observed the consequences of the coronavirus crisis and adequately included its impact on the investment fund and the markets in which the investment fund invests into its decision-making processes. As of the date of this report, no significant redemption requests had been made in respect of the investment fund; the effects on the investment fund's unit certificate transactions are continuously monitored by the Asset Management Company; the performance capability of the most important service providers did not experience any significant impairment. In this context, the Asset Management Company of the investment fund satisfied itself in line with numerous national guidelines and following discussions with the most important service providers (especially the Depositary, the portfolio management and the fund administration) that the measures taken and the business continuity plans put in place (including extensive hygiene measures on the premises, restrictions on business travel and events, precautions to ensure the reliable and smooth running of business processes in the event of a suspected case of coronavirus infection, expansion of the technical options for mobile working) will curb the currently foreseeable or ongoing operational risks and will ensure that the investment fund's activities will not be disrupted.

At the time of preparing this report, the Asset Management Company is of the opinion that there are no signs indicating any doubt on the ability of the respective investment fund to continue as a going concern, nor were there any liquidity problems for the investment fund.

DWS GLOBAL GROWTH

Performance of unit classes vs. benchmark (in euro)

| Unit class | ISIN | 6 months | |
|-------------------|--------------|----------|--|
| Class LD | DE0005152441 | 15.7% | |

Disclosure regarding asset valuation procedures:

The Depositary shall determine the value with the participation of the asset management company. The Depositary generally bases its valuation on external sources.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between the Depositary and the asset management company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

| | Quality/Qualities: | | | | | |
| | Insofar as securities lending transactions, reverse repurchase agreements or transactions with OTC derivatives (except forward currency transactions) are concluded, collateral in one of the following forms is provided to the fund: - Liquid assets such as cash, short-term bank deposits, money market instruments according to the definition in Directive 2007/16/EC of March 19, 2007, letters of credit and first-demand guarantees that are issued by top-rated credit institutions not affiliated with the counterparty, or bonds issued by an OECD member country or its local authorities or by supranational institutions and authorities at local, regional or international level, regardless of their term to maturity | | | | | |
| | | | | | | |
| | - Units of a collective investment undertaking (hereinafter "UCI") investing in money market instruments that calculates a net asset value daily and has a rating of AAA or an equivalent rating | | | | | |
| | - Units of a UCITS that invests predominantly in the bonds and equities listed under the next two indents | | | | | |
| | – Bonds, regardless of their term to maturity, that have a minimum rating of low investment-grade | | | | | |
| | - Equities admitted to or traded in a regulated market in a member state of the European Union or on an exchange in an OECD member country, provided that these equities are included in a major index The Management Company reserves the right to restrict the permissibility of the aforementioned collateral. Furthermore, the Management Company reserves the right to deviate from the aforementioned criteria in exceptional cases. | | | | | |
| | | | | | | |
| | Additional information on collateral requirements can be found in the sales prospectus for the fund/sub-fund. | | | | | |
